LEGISLATURE MAY ACT IN N. Y. STRIKE

Governor Will Be Urged to Call Extraordinary Session for Purpose of Preventing What Promises Big Disaster

Labor Leaders Reported to Be in Favor of the Plan, But Are Confident a Great Walkout Will Be Success at the Start

NEW YORK, Sept. 26.—An extraordinary session of the New York legislature to deal with conditions growing out of the New York traction strike will be requested of Governor Whitman, when the New York City members of the legislature will meet with him late today at the Hotel St. Regis. The movement to hold the special session has the support of the New York City legislators, but the strike leaders as well, according to reports.

Governor Whitman, however, on previous occasions has not been favorable to the idea of a special session of the legislature and there is no certainty that he will accede to the request of the legislative committee. The union leaders are reluctant to make any positive predictions as to the number of members who will respond to their general call, but have announced that probably some of the unions originally scheduled to go out tomorrow will not join the movement until next week.

Leaders of the strike assert that reports from the labor organizations

Padres Live Again in Mission Play Pageant Mirrors California History Romance and Realism in Stage Poem

The Mission Play, which has drawn in the past four years more than 500,000 visitors to the little mission theater at San Gabriel, came to the Macdonough last night on a first pilgrimage from its home in California toward the East. A large crowd enjoyed the initial performance here.

The Mission Play tells in outline the story of the founding of the California missions, combining with considerable dexterity the religious and historic elements with a snappy Spanish-California holiday with the all the attractions of a well staged bit of vaudeville based upon this period in the history of the state.

Pageantry and allegory are joined to give atmosphere to the opening scenes in the production. The romance of California carries the action forward on its way.

The story of the play is not a consecutive presentation of the life of a group of characters, but is rather episodic in treatment. Its plot structure is that of a spiritual tragedy of the heroic rise of the missions, of the flowering of the work of the fathers and of the aftermath of decay.

IS TRUE TO HISTORY.
John Steven McCarty, author of the play, has delved deep into the regarding "the cessation of work" in sympathy with the carmen are encouraging, but claims as to the number that will respond have been reduced.

Conditions never before witnessed here are promised by William B. Fitzgerald, organizer. He said that many unions not now on the list will join those who will walk out tomorrow. These, he said, are being kept secret to prevent "blacklisting" of their members by their employers.

Two shots were fired at an "L" train early today and a striking guard, captured near by, was found to have a revolver with two empty shells. A beer bottle and a milk bottle crashed through the windows of an elevated train at Forty-sixth street and several passengers were cut.

history of the founding of the missions, and has culled out a series of significant and illuminating incidents, which he has placed upon the stage with historic accuracy and with a fine feeling for the color and romance of the subject he has chosen. McCarty has all the insight of a poet and a Celt into the self sacrifice and endurance of the padres, into their wonderful achievement, and into the tragic conclusion of their work.

The author set himself the task of awakening interest in the wonderful history of the past which is the gift of California to American history, and of satisfying the demand for an honest presentation of the story from those familiar with those years of extraordinary pioneering from 1769 to the mission of San Diego, to the close of the work of the padres, toward the middle of the following century. In carrying out both purposes he has attained his goal.

NATIVE INDIANS USED.
In staging the spectacle, he has used with great skill a group of native Indians, and some descendants of the old Spanish-California families. The Indian dance, the singing and dancing of the Spanish youths and maidens, the tiny Indian children, the kindly padres and the Spanish soldiery, all combine to make a colorful spectacle of early California life.

The stage settings are a faithful portrayal of mission scenes. The lighting and color effects are handled with a fine instinct for art and realism. Wilfrid Roger, a man of great frame and countenance at once ardent and spiritual, assumes the role of Junipero Serra, founder of the missions. He has the voice and presence essential to the presentation of a character struck from the heroic mold of the past.

The music is noteworthy. It has been selected almost exclusively from the work of old Spanish composers, and has been woven skillfully into the text of the play.

Preston Will Hasten Trial of Consul Bopp

SAN FRANCISCO, Sept. 26.—Trial of German Consul General Franz Bopp and other German consulate officers on bomb conspiracy charges is considered so important that all the other cases have been postponed to give it attention in the federal court. This was the reason given by Federal District Attorney Preston today for containing trials of other alleged neutrality violation cases until after the Bopp case, set for November 15.

The case grows out of an alleged attempt to dynamite a consignment of munitions for the Russian army while the shipment was being lighted to steamers in Puget Sound. This was one of the first of the so-called anti-ally cases to be investigated by the government.

Trial of the Germans will follow immediately the second trial of the Oregon land fraud cases, in which United States District Attorney Clarence Reames of Portland will conduct the prosecution.

Physical Education Course Is Offered

Forty Oakland women have appealed to the University of California for an evening university extension class in theory and practice of physical education. In response to their request, the university will hold an extension class from 7 to 9 o'clock every Monday evening in the gymnasium of the Technical High School, Forty-second and Broadway. The students will put on gymnasium suits and be taught by Miss Signe Hagelthorn, instructor in physical education in the University of California. Various types of gymnastic and corrective exercises and playground sports, with sound instruction in the theory which underlies physical education, as well as in the bodily activities involved. The object of the course is to acquaint teachers and parents with the art of physical development for young people. A similar university extension course is to be given by Miss Hagelthorn on Thursday evenings in San Francisco.

School Children to Attend "Mission Play"

The students of the public schools of this city will be given advantage of the presence of the Mission Play while it is in Oakland. In Southern California the pupils of the schools were sent in a body to the Mission Play by their teachers and the boards of education that the boys and girls should get the lesson of California history. From one performance of the Mission Play they may learn much of California and American history. There will be a special matinee at school prices at the Macdonough Thursday afternoon. Arrangements may be made in advance with the Macdonough theater to secure these rates for the schools.

Chevrolet Factory Turns Out First Car

Today saw the first automobile turned out by the new Chevrolet factory on the boulevard. The machine is being kept for a ceremony to be held in a few days, at which Mayor John L. Davis will be asked to give it to the building and members of the Chamber of Commerce and Lincoln Highway Association will be present to greet the industrial infant.

The first car has been produced by Mrs. Norman De Vaux, wife of the head of the factory. The second car is to be turned out by the Chamber of Commerce.

AFFIDAVITS MAY SAVE AMERICAN

LOS ANGELES, Sept. 26.—Affidavits establishing the American citizenship of Frank Stahl, now in a French military prison, have been forwarded to Washington, it was learned today, to support the State Department's efforts to save Stahl from possible execution. Stahl was a motor truck driver in the British service, it was said, and left without leave. His mother, Mrs. Hiram Sibley of Hanford, was informed he had been taken from a departing steamer at Havre, France, and held for the British. Stahl, who adopted his mother's present name of Sibley, was born in Seattle in 1891, and his citizenship is unquestionable, according to Department of Justice officials. They are now waiting at the request of the State Department, unless he had renounced his American citizenship when he entered the British service.

AKED MAY RETURN TO S. F. PULPIT

SAN FRANCISCO, Sept. 26.—Dr. Charles F. Aked may return to San Francisco after all, and as pastor of the First Congregational church. This became known today from adherents of the minister who gave up his pulpit here to join Henry Ford's peace party, from which he is now severed.

A meeting of the officers of the church has been called for next week, and as no successor to Dr. Aked has been named and his friends are still active, it was declared today there is a possibility of the former decision not to ask him which he is now reversed.

Dr. Aked has taken the recent refusal of the congregation to recall him philosophically, according to those here in touch with him. One, Dr. Philip Rice, said today:

The congregation voted, and Dr. Aked considered the matter done with him. I have heard from him since the meeting and know that is his attitude.

No one else is under consideration as pastor, it is said, and there is no longer any talk of a separate church being formed, as was suggested in the heat developed between Dr. Aked's supporters and his opponents after the meeting three weeks ago.

Pocket Blast Injures Lad Dynamite Caps Prove Dangerous Playthings

MEDFORD, Ore., Sept. 26.—Coyly Johnson, aged 9, while on his way to school this morning touched a match to a dynamite cap, the resultant shock exploding half a dozen which he was carrying in his hip pocket. His left hip and thigh were badly lacerated, his body filled with bits of cloth and left eye blinded. One shoe was blown from his foot. He has a chance for recovery.

Six lectures will be delivered by Monson here each succeeding Monday under the auspices of the University of California extension department. He has traveled extensively all over the world and his intimate knowledge of Mexico and its politics made his lecture of unusual interest, considering the present state of affairs in that country. Much of his talk was devoted to a description of the Mexican revolution and how that had been caused by the exploitation of the Indian population in Mexico by the people of Spanish blood.

LECTURER TELLS MEXICAN PERILS

NEW YORK, Sept. 26.—Mexico's succession of political upheavals and how they can be prevented in future and permanent peace restored to that country with the assistance of the United States in adjusting its differences were the subjects of a lecture given by Frederick Monson, traveler and lecturer, of Alameda in a lecture on "Turbulent Mexico" in the high school auditorium last night.

Buy heating preparedness now!

You have long known that your building should be radiator heated—but without good reason you have been putting it off and off. Then in a night something happens—someone in the family becomes very ill and reliable heating is seriously needed—or unexpected visitors come, or you find you have chosen a fearfully cold night for a party, and you are so ashamed at not being radiator-prepared that you'd gladly pay double-price if you could instantly put in these wonderful heat-makers and fuel-savers—

AMERICAN & IDEAL RADIATORS & BOILERS

to make this improvement. These outfits make property sell or rent quicker and at a profit.

Bankers, builders, real estate men and building societies all know the increase in property value and stability of investment where AMERICAN Radiators and IDEAL Boilers are installed and therefore gladly loan money to those who wish

The most important question to settle about a new or old building is the heating. IDEAL heating has answered this question for hundreds of thousands of house-owners for over twenty-five years, and as an investment it is permanent and will command a good price even after the owner has enjoyed its comfort and savings for many years.

A No. 5-22-W IDEAL Boiler and 450 ft. of 3/4-in. AMERICAN Radiators, costing the owner \$235, were used to heat this cottage. At the time the house was bought of a reputable, competent fitter. This did not include costs of labor, pipe, valves, freight, etc., which vary according to climatic and other conditions.

A little larger first investment over cost of a cheap heating equipment can be quickly overcome by omitting extra inner doors, chimneys, mantels, storm sash, weather strips, etc. You might better increase your borrowing at the bank, for the fuel and other savings that IDEAL heating will give you will make money for you far beyond the bank interest you have to pay.

Send at once for our (free) book "Ideal Heating," which gives most valuable information. Puts you under no obligation to buy.

BANNING IN TYPHUS GRIP, ASKS AID

Riverside County Town Is
Center of Wave of Disease
Imported by Mexicans at
Work on R. R. Construction

Smallpox Adds to Menace of
Health As Physicians Work
to Stem Tide of Contagion
and Halt Threatened Spread

SACRAMENTO, Sept. 26.—According to word received today by Secretary W. A. Sawyer of the State Board of Health, twenty cases of typhus and seven cases of smallpox are raging in the town of Banning, Riverside county, where state help has been sent the medical authorities of the southern town. Special Investigator Dr. Geiger is now in the south, aiding in the work of eradicating the disease, which threatens to spread to enormous proportions.

Both diseases are brought into the state by Mexican laborers, imported from Mexico to do road work on the Southern Pacific and Santa Fe railroad companies. Typhus is the result of filthy living conditions, having for its communication agent a species of louse. One death has resulted from typhus and two from smallpox. Two typhus cases now under treatment developed in El Paso, Texas, although the victims were ill before leaving Mexico.

FIND CARRIERS. Dr. Sawyer, in speaking of the dangers to which the state is being exposed, said that all the cases disclosed by the investigation of the health authorities, the victims have been found to be infected with lice. Lice are the carriers of the disease, transmitting typhus from one victim to another, leaving the bodies of the dead for live people, thereby communicating the deadly disease to healthy persons.

Thus far only Mexicans have been attacked by this disease in California, but Dr. Sawyer says Americans are not immune and even people who are already subjected to the disease if they should come into contact with an infected Mexican and one of the lice should be transferred to the American.

The state health authorities will band every effort in its power, and will have the assistance of the Texas health authorities also, to eradicate the disease, and to confine it to the cases already developed. Typhus has been prevalent in Mexico for many years. It is especially dangerous where people live in conditions of squalor, where they live in close contact and are careless and unclean. The destruction of the disease, and a lice-killing campaign will be started in the Banning district, where the cases have developed.

ROADS CO-OPERATE. The State Board is relieving the co-operation of the railroad companies in a clean-up campaign, which was ordered today, and the board has taken up with the authorities in Texas the question of preventing typhus victims, or those exposed to the disease from coming to the state of California through Texas.

Texas authorities will co-operate, because they have a double menace on their hands—the menace from Mexico and the menace from California—if the typhus

'Blingum' Car Gives Up Ghost

Motor Competition Too
Much for It

SAN FRANCISCO, Sept. 26.—Why should Burlingame have a street railway? Why, indeed? Is it not the spot where the elite of San Francisco have their country villas? Is not every villa provided with a garage and one, or more motors?

Thinking over these questions and footing up the expenses which he has incurred during the last few years, Ansel M. Easton, owner of the Burlingame street railway, decided to resign and go out of business. For Burlingame has had a street railway all these years, though it never became so prosperous as to have any occasion to ask for additional franchises.

The railway runs from Broadway, near the Southern Pacific station, to Hillside drive, a distance of one mile and a half. It has one car, driven by a storage battery, one motorman and one conductor. The fare is 5 cents and transfers are not issued.

STATE WAITS FOR

DYAR DIVORCE IS HALTED AT RENO

Noted Entomologist Had Not
Gained Legal Residence
in City.

The divorce suit, brought in Reno by Harrison Dyar, noted entomologist of the Smithsonian Institute, has been halted through legal complications, it was learned today in Berkeley, where Mr. Dyar makes his home. Dyar had lived in Reno only two months and Judge Stoddard therefore decided he had no jurisdiction. The case was thrown out of court.

Dyar declared that he had made many trips to the country since establishing a home in Reno, and that the court decided that he had not fulfilled residence requirements, and was not entitled to sue.

A mass of charges and counter charges, and much sensational evidence, were declared to have been ready for the suit, which was ordered held behind closed doors.

Dyar charges his wife with cruelty, and a jury of six men and six women had been chosen to sit on the case. The suit was filed in March, and Mrs. Dyar promptly answered it. Dyar admitted writing a fiction story paralleling the situation in his own household, and in which "the other woman" was various other features of the case were presented.

SIX PERISH WHEN STEAMER SINKS

OSWEGO, N. Y., Sept. 26.—The steamer Roberval, bound from Ottawa to Oswego, went down in a storm five miles off Oswego early today. Six were lost. Three survivors were rescued.

In a battered lifeboat, half filled with water, three sailors, exhausted after an eight-hour fight with wind and waves, arrived at the coast guard station at 2 o'clock this morning with the story of the sinking of the Roberval. The steamer, which was loaded with lumber, Ottawa to Oswego, sank six miles off this port at 6 o'clock last night.

Six members of the crew went down. The lost are: Captain Peter E. Roberval, owner; Mate Joe Perreault, Ottawa; Cook, Joseph Parent, Ottawa; Fireman Marcelle Messier, Henry Saguin, Hull, Quebec; Deckhand Theodore Leroy, Hull, Quebec.

The survivors of the wreck are: Engineer Phillip Trotter, Hull, Quebec; Oliver Sagen, Ottawa; Wheelman Ed. Lago, St. Ann, Bellevue, Quebec. The Roberval was drenched in a heavy sea. Waves dashed into the craft, sinking her. The crew was washed overboard. Leroy was struck by a board and sank immediately. The other survivors were miraculously. Trotter was thrown into the lifeboat and he picked Sagen and Lago from the lake. The sea then dashed the lifeboat away from the wreck. Other members of the crew sought safety on the lumber but a search today failed to bring rescue and they are given up as lost. The Roberval was a steel boat.

Billy Sunday Can't
Come West for Year

SAN FRANCISCO, Sept. 26.—At a meeting of the San Francisco Church Federation here it was determined to appoint thirty members of a committee in the near future to make complete arrangements for a series of Billy Sunday evangelistic meetings. Sunday has already signified his willingness to come to the bay region, providing the churches support the movement and an immense tabernacle is erected.

To Conduct Jewish
Service at Prison

Jewish religious services on the Day of Atonement, October 7, at San Quentin will be conducted by Felix J. Jonas, senior at the University of California, and son of Mr. and Mrs. J. L. Jonas, 952 Arapahoe street, Los Angeles. The invitation to serve as director of the ceremony was extended by Dr. Martin A. Meyer of Temple Emanuel, San Francisco, in recognition of the young man's ability and sincerity in religious work. One meeting may be held at the university and in his home city for his interest in religious work.

Liquor Packed in Car
of Grapes Is Seized

TACOMA, Sept. 26.—A carload of liquor packed in fresh California grapes was seized today at Wilkeson, a coal mining town near here. The liquor was consigned to an expressman, who denied knowing anything about it. Three thousand pounds of fine grapes covered 3000 quart bottles of bonded whiskey, which were packed in boxes. The whole lot of grapes given away by the sheriff. The liquor will be destroyed.

Drinkers Need
Medicine

They don't need lectures or moral suasion. Their bodies must be de-acidized or unpoisoned before they can help themselves.

The Genuine Neal 3-Day Treatment will unpoison the drinker in 3 to 5 days and restore him to complete self-mastery. No hypodermics, no opiates, no narcotic drugs cause successfully treated. For details address W. S. Wallace, Mgr. Neal Institute, 60 Neal Street, San Francisco. Phone West 553.

BASEMENT STORE

Coats at Bargain Prices

When our buyer got these coats he said, "These values will make people sit up and take notice." And he was right. They are stylish, durable, becoming and best of all INEXPENSIVE. These coats are ranked in three different price lots according to quality, though every one looks to cost much more.

The materials are mixtures, velours, zibelines and plush. The trimmings are of self, velvet, velour and in some cases of fur, and all sorts of pretty novelty buttons. Belted styles prevail—the belts sometimes being all around and again in front or in back. Many coats in the popular flare style and pockets everywhere. Many with large collars that can be buttoned close up around the neck. The colors are black, navy, gray and rich mixtures and plaids, green, brown, etc. Big values at prices that will more than give satisfaction. (On Sale in Basement Only)

Clay, 14th and 15th Streets

MISS EUDORA FRANCES POPE, an attractive bride-elect, whose engagement has just been announced. Her marriage to Joseph Machell will take place in two months or so.

Martinez, and Miss Corita Jacobs, Oakland.

The exceptional gaiety of Santa Barbara has lured down Mr. and Mrs. Tyler Henshaw, who took the train for Southern California last evening to be the guests of Mrs. William Griffith Henshaw at a party at the magnificent Henshaw place at Santa Barbara, where so much festivity has centered this summer.

Their stay will be from one to three weeks, and on the return the date will at last be set for the debut of charming little Miss Ida Henshaw, who will be one of the much-esteemed guests of the winter. This coming out party, it has been decided, will be a formal reception some time later at the end of October or early in November, and it will, of course, be one of the very important functions of the late fall.

No matter where else society has gone this summer, there has been no cessation of joyousness in Santa Barbara, and every one of the movable colony there for the warm months is finding it hard to leave. Mrs. William Griffith Henshaw may not come north until the middle part of October has vanished, but Mrs. Alla Henshaw Chickering is looked for the Fashion Show on Ocean Boulevard, and certainly one of the most charming of the amateur mannikins last spring, and would be much missed from the "cast."

After Miss Ida Henshaw makes her bow to the beau monde Mrs. Tyler Henshaw will entertain for Miss Eudora Earl, whose engagement to Joseph Machell was announced last week, and for one or two of the other engaged girls of the same set.

Del Monte, one is told, is of a superior smartness than even in July, when Mrs. William K. Vanderbilt Jr. was there to give it a superlative touch of social luxury. The same peninsula families and San Franciscans who entertain lavishly during the polo season are there, and there are also a number of others from among the exclusives who are in addition to the ensemble, which is very glittering in its ball gowns and stunning in the soft links. Dazzling new winter frocks are coming out from layers of imported tissue in which they traveled to astonish the several hotels dining at Pebble Beach and in various parts of the hotel, and during much of the day all the women are appearing in fleecy wool sweaters with muffler collars to fasten under their chins when the cold winds blow in over the breakers up to the oak trees sheltering the resort.

Besides Mrs. William Pierce Johnson and Miss Josephine Johnson, the contingent from the east bay includes Walter Leimert, who is always a "fan" at the annual tournament, Mr. Leimert was one of the dinner party the other night that included Miss Constance Hart, who will be one of the stars among the amateur performers of the San Francisco Fashion Show. Charles Stanton, formerly of Berkeley and San Francisco and now of Chicago, was one of the same group.

Mr. and Mrs. Augustus Bray are also down there with Mrs. Bray's brother-in-law and sister, Colonel and Mrs. Lincoln Karmann, who are building a beautiful place at Pebble Beach near the Frank Flaxley. Together with the Pixleys, who are extremely hospitable, they are enjoying the casual days out of doors.

Mrs. G. L. Swayze will be the hostess at a dinner next Friday evening, which will include a number of relatives in honor of Mrs. Alice Freuler and her nephew, Harry Norris, who is expected to arrive at Berkeley evening of next Friday evening. Among her guests will be her sister, Mrs. Norris, who is expected to arrive at Berkeley evening of next Friday evening.

Seventeen of the young girls of Miss Ransom's School enjoyed a merry week-end excursion to the Mount Diablo Park Country Club, an attractive note to the gathering there.

In the party were Miss Winifred L. Brice, Miss Alice E. Githria, Striver, Miss Marjorie Gull, Miss Margaret Madison, Miss Elizabeth Bliss, Miss Geraldine, Miss Margaret Munn, Miss Juliet Rice, Miss Edith Rice, Miss Lulu Kane, Miss Esther M. Culver, Miss Alice Dible, Miss Eleanor Fay, Miss Adele Wallace, Miss Mary E. Wallace, Miss Florence Veach and Miss Marian Wood.

Others who responded to the call of out of doors by seeking the mountain club included Mrs. George L. Dillman, Mrs. J. B. Wallace, Bruce Dillman, Miss Ruth, and Mrs. E. Wallace in an Alameda motor party.

Another jolly group included Mr. and Mrs. Ben Reed, Mr. and Mrs. A. Palmer and Mr. and Mrs. H. N. Sanders who motored over on Saturday afternoon and remained over for the dance that evening.

Mr. and Mrs. F. F. Hall, Mr. and Mrs. C. Snyder of Berkeley, with Miss Valise Hall and Miss Connie Clamport of San Francisco, with Mr. and Mrs. W. E. Dodge, were week-end visitors also.

Other motor parties included Mr. and Mrs. Henry Gage, Mr. and Mrs. D. Fuller, Oakland; Mr. and Mrs. Arthur Austin, Miss Ethel Austin, Harry and Arthur Austin, Mrs. J. E. Edmonds, Dorn and Mrs. Dora L. Dorn, San Francisco; Mr. and Mrs. Ernest L. Vemle, San Francisco; Mr. and Mrs. Shuey, Mr. and Mrs. Charles Shuey, Berkeley; Mr. and Mrs. Sumner Woody, Oakland; Miss Edith Wagner, Miss Gladys Patch, San Francisco; Mr. and Mrs. Frederick A. Stoll, Mr. and Mrs. Alexander Pentages, Mrs. Goodman Pentages, Mr. and Mrs. Louis Henrich, Miss Carmen Stoll, Walter J. Fitzpatrick of Oakland and San Francisco; Mr. and Mrs. G. W. McHenry, Piedmont, and Mr. and Mrs. George C. Brown, Oakland; J. E. Rodgers, Miss Alice Rodgers,

Mr. and Mrs. Harold W. Cobb, who came out from Washington, D. C., a time ago, have taken a house in Pacific avenue, San Francisco, and are being welcomed by friends to whom they had to say farewell some years back, when Mr. Cobb was called to the American capital to serve as assistant attorney general.

Mrs. Cobb was formerly Mary Edna Snell of Berkeley, a member of the well known family with its many ramifications. Richard and Henry Snell are her brothers. She is a very stunning woman, and much of her friends in society on this side of the bay.

The announcement that "Terry" Landfield, ornament of the Bohemian Club and priceless dinner guest, is to continue his lecturing this winter, is interesting to society women in the transbay cities who have been attending these talks of his for the past two years on Wednesday mornings.

All this summer at the summer school session, Mr. Landfield, who happens to have been formerly connected with the history department of the University of California, gave interesting addresses. This winter he talks again on current events, beginning Wednesday morning, October 5, speaking of affairs of local and world interest.

Of course he is in touch with many influential persons directly connected with European affairs at the present time, and in recent lectures he has read many letters sent from the front.

Among those who have been attending his lectures are Mrs. J. E. Edmonds, Mrs. George Tyson, Mrs. Robert Swaine, Mrs. Louis James, Mrs. Robert Abernethy, Mrs. Charles J. O'Connell, Mrs. Ralston White, Mrs. D. B. McHenry, Mrs. Dixwell Hewitt, Mrs. Cuyler Lee, Mrs. William Alton Hayne, Mrs. George Whitell, Mrs. William Cary Van Fleet, Mrs. James Potter Langhorne, Mrs. William Roth, Mrs. Richard Helman, Mrs. M. H. de Young, Mrs. Silas Palmer, Mrs. James Hitt Bishop, Mrs. Hippolyte Dutard, Mrs. Samuel Pond, Miss Helen Swaine, Miss Helen Kinsell, Miss Anna Olney, Miss Anna Beaver, Miss Ethel Beaver, Miss Jennie Blair and Miss Florence Braverman.

For the most brilliant feature, is held one of the most brilliant men in the world, in San Francisco and down the peninsula, and Mrs. Landfield, who happens to be a Russian princess, is considered one of the most interesting of women.

While Mr. and Mrs. Demos Seelien are wintering in San Francisco, their attractive home in Piedmont has been taken by Mrs. Sumner Crosby, the sister of Mrs. Washington Creed, who has put her four young children to school at Miss Ransom's.

Mrs. Crosby has been spending the

summer at Santa Barbara, where she was a conspicuous figure in the brilliant colony there.

Eastern universities are taking numerous students away, including Cyril McNear, the son of Mrs. John McNear, who is joining Barroll McNear at Harvard University.

Felton Elkins, whose plays have been among the recent events at Santa Barbara, this summer, left last week for the East, planning to take another course in play writing at the same great institution.

Mr. and Mrs. Robert Noble Burgess have as their week-end guest at their home at Mount Diablo Park, Mrs. Burgess' mother, Mrs. Ladvette Fish, of Berkeley.

Other visitors at Mount Diablo Park were: Mr. and Mrs. M. W. Watson, San Francisco; Miss Elizabeth L. Walton, Berkeley, and Miss Mary Louise Michaels, Alameda.

A number of Berkeley and Oakland matrons affiliated with the Joseph Le Bon chapter of the United Franchisers of the Confederacy will be entertained tomorrow afternoon at 3 o'clock at the home of Mrs. Charles L. Trubert, 2740 Elmwood avenue, Berkeley. This special affair is commemorative of the birthday of Rear Admiral Raphael Semmes.

Friends of Mr. and Mrs. George Porter (Easter Church) are congratulating them on the arrival of a small daughter, their household last Saturday evening. The little girl has been named Georgene Devadore, the middle name taken from that of a lake in Switzerland, near which the young matron lived for some time when studying music before the war.

Mr. and Mrs. Felix M. Locher are welcoming a little daughter, also born last Saturday evening. This is the third child in the Locher menage, the others being a little girl, Marguerite, and a son, Louis.

Mrs. Locher was formerly Miss Freda Gooding of Tahiti, South Sea Islands. In recent lectures he has read many letters sent from the front.

Among those who have been attending his lectures are Mrs. J. E. Edmonds, Mrs. George Tyson, Mrs. Robert Swaine, Mrs. Louis James, Mrs. Robert Abernethy, Mrs. Charles J. O'Connell, Mrs. Ralston White, Mrs. D. B. McHenry, Mrs. Dixwell Hewitt, Mrs. Cuyler Lee, Mrs. William Alton Hayne, Mrs. George Whitell, Mrs. William Cary Van Fleet, Mrs. James Potter Langhorne, Mrs. William Roth, Mrs. Richard Helman, Mrs. M. H. de Young, Mrs. Silas Palmer, Mrs. James Hitt Bishop, Mrs. Hippolyte Dutard, Mrs. Samuel Pond, Miss Helen Swaine, Miss Helen Kinsell, Miss Anna Olney, Miss Anna Beaver, Miss Ethel Beaver, Miss Jennie Blair and Miss Florence Braverman.

For the most brilliant feature, is held one of the most brilliant men in the world, in San Francisco and down the peninsula, and Mrs. Landfield, who happens to be a Russian princess, is considered one of the most interesting of women.

Mr. and Mrs. Felix M. Locher are welcoming a little daughter, also born last Saturday evening. This is the third child in the Locher menage, the others being a little girl, Marguerite, and a son, Louis.

Mrs. Locher was formerly Miss Freda Gooding of Tahiti, South Sea Islands. In recent lectures he has read many letters sent from the front.

Among those who have been attending his lectures are Mrs. J. E. Edmonds, Mrs. George Tyson, Mrs. Robert Swaine, Mrs. Louis James, Mrs. Robert Abernethy, Mrs. Charles J. O'Connell, Mrs. Ralston White, Mrs. D. B. McHenry, Mrs. Dixwell Hewitt, Mrs. Cuyler Lee, Mrs. William Alton Hayne, Mrs. George Whitell, Mrs. William Cary Van Fleet, Mrs. James Potter Langhorne, Mrs. William Roth, Mrs. Richard Helman, Mrs. M. H. de Young, Mrs. Silas Palmer, Mrs. James Hitt Bishop, Mrs. Hippolyte Dutard, Mrs. Samuel Pond, Miss Helen Swaine, Miss Helen Kinsell, Miss Anna Olney, Miss Anna Beaver, Miss Ethel Beaver, Miss Jennie Blair and Miss Florence Braverman.

For the most brilliant feature, is held one of the most brilliant men in the world, in San Francisco and down the peninsula, and Mrs. Landfield, who happens to be a Russian princess, is considered one of the most interesting of women.

While Mr. and Mrs. Demos Seelien are wintering in San Francisco, their attractive home in Piedmont has been taken by Mrs. Sumner Crosby, the sister of Mrs. Washington Creed, who has put her four young children to school at Miss Ransom's.

Mrs. Crosby has been spending the

summer at Santa Barbara, where she was a conspicuous figure in the brilliant colony there.

Eastern universities are taking numerous students away, including Cyril McNear, the son of Mrs. John McNear, who is joining Barroll McNear at Harvard University.

Felton Elkins, whose plays have been among the recent events at Santa Barbara, this summer, left last week for the East, planning to take another course in play writing at the same great institution.

Mr. and Mrs. Robert Noble Burgess have as their week-end guest at their home at Mount Diablo Park, Mrs. Burgess' mother, Mrs. Ladvette Fish, of Berkeley.

Other visitors at Mount Diablo Park were: Mr. and Mrs. M. W. Watson, San Francisco; Miss Elizabeth L. Walton, Berkeley, and Miss Mary Louise Michaels, Alameda.

A number of Berkeley and Oakland matrons affiliated with the Joseph Le Bon chapter of the United Franchisers of the Confederacy will be entertained tomorrow afternoon at 3 o'clock at the home of Mrs. Charles L. Trubert, 2740 Elmwood avenue, Berkeley. This special affair is commemorative of the birthday of Rear Admiral Raphael Semmes.

Friends of Mr. and Mrs. George Porter (Easter Church) are congratulating them on the arrival of a small daughter, their household last Saturday evening. The little girl has been named Georgene Devadore, the middle name taken from that of a lake in Switzerland, near which the young matron lived for some time when studying music before the war.

HUGHES IS BOTHERED BY OHIO'S CHIEF

Governor of State Persists in Glory of Limelight As It Reflects From Presence of G.O.P. Presidential Nominee

Candidate, Firm of Voice, Gains Enthusiastic Commendation of His Talks on Americanism and Dem. Criticism

By PERRY ARNOLD.

TOLEDO, Ohio, Sept. 25.—Firm of voice from nearly two days' saving of the throat muscles, Republican Nominee Hughes started his second day's tour of Ohio today in two early morning speeches. The Republican keynote committee arranged a schedule which aroused the candidate before 8 o'clock and which fixed for him five speeches during the day. Dr. L. D. Alexander Jr., his throat specialist, was on the job before 8 o'clock, when Hughes made his first speech at Findlay, and was kept busy during the most of the day with sprays and throat pastilles.

Hughes' voice today did not show any need for the hours which his physician spent getting him in shape. But the thing which Dr. Alexander fears is that Hughes, feeling his voice clear, will overwork his vocal chords. Hughes is an impatient patient, who doesn't like to bother with sprays and gargles when his voice sounds fairly good.

It was Americanism and the tariff which the G. O. P. nominee preached most in his swing northward across Ohio today. In addition he dwelt forcefully on the Adamson bill compromising the railroad strike. He was given an enthusiastic reception everywhere.

One thing which bothered Hughes' managers on the tour today was the persistent way in which Governor Willis of Ohio contrived to protect himself into the limelight. In the parade at Dayton yesterday they pointed out that the Republican gubernatorial nominee stood up in his car which followed Hughes in the parade—and took full advantage of any cheers which Hughes' appearance evoked. Hughes remained seated during the return. At the Dayton committee speakers' bureau at 8 o'clock, it was an added stop, put on the schedule because of Cole's pleadings. Another stop was added at Bowling Green. The extra speeches made Hughes' burden for the day greater, but he was feeling fit and took the burden up in the face of pleadings by Mrs. Hughes and Dr. Alexander.

After his appearance today Hughes was scheduled for three day speeches—at Port Clinton, Sandusky and Elyria—and then a night meeting at Cleveland.

Would Increase Smaller Coins Plans for More 'Change' Are Discussed

DENVER, Colo., Sept. 26.—Plans for increasing the output of coins of small denominations, particularly pennies, nickels and dimes, were discussed at a conference between F. J. H. von Engelken, superintendent of United States mints; Thomas An-near, superintendent of the Denver mint, and T. W. H. Shannon, superintendent of the San Francisco mint.

According to Von Engelken, the demand for these coins, as well as quarters, is unprecedented, a condition he attributes to the general prosperity of the country. The Denver mint is working sixteen hours a day and the San Francisco and Philadelphia mints, he said, were working twenty-four hours a day.

Chinese Object to Land Tax Plan of Japan

SHANGHAI, Sept. 26.—The Chinese land tax, to be collected under the supervision of Japanese inspectors, is to be offered as security for Japan's share of the \$50,000,000 loan sought by China, according to a report received here.

The Peking correspondent of the Chinese press says that this is most serious to China, because it means the penetration of the interior by the Japanese financial representatives, who will be followed by Japanese troops. The manager of the Yokohama Specie Bank, who represents the Japanese financiers interested in the loan proposition, has demanded the security of the land tax and, according to reports here, Premier Tuan Chi-jui prefers to sacrifice the loan rather than accept what he considers an unreasonable demand. Premier Tuan Chi-jui considers the surplus of the salt revenue sufficient security.

Government Plans Kelp Experiments

LOS ANGELES, Sept. 26.—The Department of Agriculture is preparing to establish a government experimental station here for the development of kelp fertilizer, according to J. J. Turrentine, an undersecretary in the department, who is here. Turrentine conferred with kelp fertilizer manufacturers here. He also disclosed the fact that an appropriation of \$175,000 for the development of fertilizer in America will be used here. The appropriation was made after the German potato supply had been cut off by the war.

President Casts His Ballot, Unrecognized

PRINCETON, N. J., Sept. 24.—President Wilson cast his ballot in the Democratic primary here today unrecognized by the crowds gathered about the polls and greeted by scarcely a dozen acquaintances. The President was one of the first to reach the polls, only thirteen having preceded him in the election booth.

Shadow Lawn in his automobile. The San Francisco association for the Blind has added a home teaching department under the direction of Miss Mary White Eastman. Instruction will be given free to all blind or partially blind who want to become familiar with systems and appliances used by the blind. Classes will be held Wednesday afternoons at 1526 California street, San Francisco.

COURTESY OF THE GRAPE-NUTS CO.

GRAPE-NUTS CO. LIMITED, BATTLE CREEK, MICH., U. S. A.

A FOOD

"ECONOMY"

Four ounces of GRAPE-NUTS will make a quart of GRAPE-NUTS soup.

"THERE'S A REASON"

—at Grocers.

What's There?

Whole wheat is sweet, but when you add the zest of malted barley you have a flavor that no food made of wheat alone possesses.

The famous food, Grape-Nuts, has a delightful taste that everybody likes, and it lies in the "magic of the malt."

Then, too, malted barley contains, besides its great nourishing qualities, a digestive which makes Grape-Nuts food particularly satisfying to weak, as well as strong stomachs.

Ready to eat, easy to digest, delicious—every table should have its daily ration of

Grape-Nuts

DEMOCRATS PLAN STATE CAMPAIGN

Executive Committee of Men and Women Appointed for Work.

An executive committee of fifty-six members of the Democratic State Central Committee has been appointed by State Chairman O. K. Cushing for the purpose of carrying on the presidential campaign in California during the coming month. Sidney M. Van Wyck Jr. is chairman of the executive committee and with him will serve:

From Oakland, Robert M. Fitzgerald, Mrs. F. G. Harrison; from Berkeley, H. W. Brunk, Mrs. C. C. Emslie; from San Francisco, O. K. Cushing, Washington Dodge, Frank J. Hennessy, Hugo K. Asher, William B. Acton, John P. Fenwick, Mrs. R. H. Galtner, Thomas W. Hickey, Thomas E. Hayden, Samuel S. Heller, T. A. Haddon, Mrs. James Ellis Tucker, George J. Welch, Joseph J. Webb; from Los Angeles, William M. Humphreys, Hamilton H. Cotton, Isadore B. Duckwiler, George J. Dennis, R. F. Del Valle, William H. Joyce, W. O. Morton, Daniel Simms, Mrs. William C. Tyler.

Mrs. George B. Church, Fresno; Nicholas Bowden, San Jose; Thomas J. Branson, San Jose; C. L. Evers, Redlands; George B. Catts, Stockton; Argyle Campbell, San Jose; Will A. Dower, San Andreas; W. C. Dallas, Merced; Charles Donlon, Oxnard; Robert H. De Witt, Yreka; Thomas W. Duckworth, San Bernardino; F. F. Edson, Santa Cruz; O. L. Everts, Fresno; Miss Mary E. Foy, Pasadena; E. L. Finley, Santa Rosa; Mrs. Robert Potter Hill, Sonoma; Fred H. Hall, Bakersfield; I. I. Irwin, San Diego; William T. Jeter, Santa Cruz; Mrs. H. J. Kilgus, Sacramento; John A. Livingston, Auburn; James M. Palmer, Napa; Mrs. Force Parker, Beverly Hills; L. F. Puter, Bureka; Claude F. Purkitt, Willows; B. F. Thomas, Santa Barbara; George Vice, Sacramento; W. J. Webber, Hanford; W. I. Wilson, Brawley.

Democratic Senatorial Candidate Is Greeted

SANTA CRUZ, Sept. 25.—George S. Patton, Democratic candidate for United States senator, left here this morning for Salinas and Watsonville, after a most successful meeting held last evening in Knight's Opera House. Former Lieutenant Governor William T. Jeter acted as chairman of the evening. Men and women prominent in the city for business and professional activities, were on the platform with the speaker. A dinner at the principal hotel was given in honor of Patton before the meeting.

President Accused of Being Dictator

BOSTON, Sept. 26.—An attack on President Wilson as "a dictator," who "is in effect more powerful under present conditions than any ruler in the world," was made by United States Senator William Brewster at the annual dinner of the Middlesex Club last night. Senator Weeks charged President Wilson with "abandoning his party principles without consultation."

During the past two years the president virtually has dictated what Congress should and should not do," Senator Weeks said. "His course has been in effect a destruction of representative government."

Albert J. Beveridge of Indiana made what was announced as his first appearance in behalf of the candidacy of Charles E. Hughes. He criticized the Adamson bill.

Bryan Is Heard in Montana on Campaign

HELENA, Mont., Sept. 26.—William J. Bryan in discussing campaign issues here last night, spoke in favor of women suffrage and declared vigorously for prohibition, which is to be decided by referendum in this state November 7. He paid high tribute to Governor S. V. Stewart and urged the re-election of President Wilson.

Garden Hose Made Love Fire Damp

Being soaked with a garden hose in the hands of her husband was not to the liking of Mrs. Jennie Hendrickson, 3238 Briggs avenue, who has filed suit for divorce from William Hendrickson, reciting the incident as a form of cruelty. She also alleges that the defendant tantalized her by turning off the gas in their home, forcing her to use candles, that he hid food and called her names, finally failing to provide for her altogether.

Los Angeles Plans "Waste Paper Day"

LOS ANGELES, Sept. 26.—"Waste paper day" has been set for October 8 in Los Angeles by the board of education. Paper will be collected and sold at \$10 a ton and the proceeds given to the society for the study and prevention of tuberculosis.

Held As Murderer

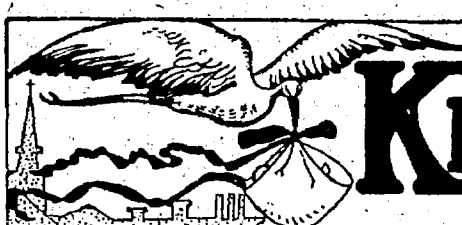

SAN DIEGO.—Patrick Burke, who shot and killed John Muggan during an altercation at Oceanside Sunday morning, will be held for trial on a charge of murder, according to the district attorney of San Diego county. The verdict of the coroner's jury was that Muggan died by murder at Burke's hands.

Pension Fund Raised

BOSTON, Sept. 26.—The \$5,000,000 needed for the Episcopal church pension fund will be in hand by March 1, 1917, according to assurance given by Bishop William Lawrence to representatives of parish committees of the Massachusetts diocese.

To Give Party

Athena Chapter, No. 277, Order of the Eastern Star, will give a whist party in the Masonic Temple, Twenty and Washington streets, tomorrow evening. Arrangements are being made to accommodate a large attendance of the lodge members and their friends.

CRIME PAYS TOLLS INTO CITY FUNDS

Police Court Fines Total \$1200
Today, Following the Arrest of Chinese Lottery Men, Who Fail to Appear in Court

Active Operation of Program for Revenue Indicates Volume of Returns Will Be Very Heavy in Effort to Gain Loss

Twelve hundred dollars was today collected in the police courts as the nucleus of that big fund which is to be collected for this year's general fund from sources other than taxation. The money taken in today represents bail forfeited in lottery cases, three Chinese forfeiting \$200 each, one white man leaving \$200 for the city's use and another \$100.

This is a part of the program contemplated by Commissioners Harry S. Anderson, F. E. Jackson and William J. Baccus when they submitted and adopted a 1916-1917 budget carrying a tax rate of \$1.89, 2 cents lower than Commissioner W. H. Edwards' proposed budget. At that time the commissioners announced that they would make up the shortage by the arrest and fining petty offenders.

Shortly after the new budget went into effect the Chinese lottery houses were opened and a number of Chinese were arrested. All were released on \$300 bail each, whereupon attorneys representing them called upon Chief of Police Anderson, and informed him that they would fight the cases in court if the bail were reduced to \$150 in each case and the prisoners permitted to forfeit. This was as it was done in the days before the lottery houses were supposed to have been closed.

Petersen refused to compromise, however, and each Chinese went into court and pleaded not guilty and demanded individual jury trials. When the names of Ah Yip, Gorge Fong and Ah Chung were called in the court of Police Judge Mortimer Smith today there was no answer. Bail was declared forfeited. Incidentally, on recommendation of Petersen, similar charges against Ah Yip, Ah Ming and Ah Chung were dismissed. Petersen said he had insufficient evidence to convict them.

George Macdonough, who is attorney for others of the arrested Chinese, announced that he would fight the accusations.

"I'll fight," he said. "We'll forfeit no bail."

Rolando Caselo, who was arrested when just about to open a new white lottery concern in Oakland, having had 60,000 tickets printed, forfeited his bail today. It was \$200. A. H. Blanchard, who printed Caselo's tickets, forfeited \$100 bail, and thus bid the city collect its nucleus of the taxation fund "from sources other than taxation."

SPEAKS TO BUREAU.
Charles W. Duncan was the speaker today on "Outdoor Advertising" at the Advertising Bureau luncheon at the Commercial Club grill. He urged artistic billboards as an effective advertising method and gave practical hints on their use. Irving Kahn presided at the meeting.

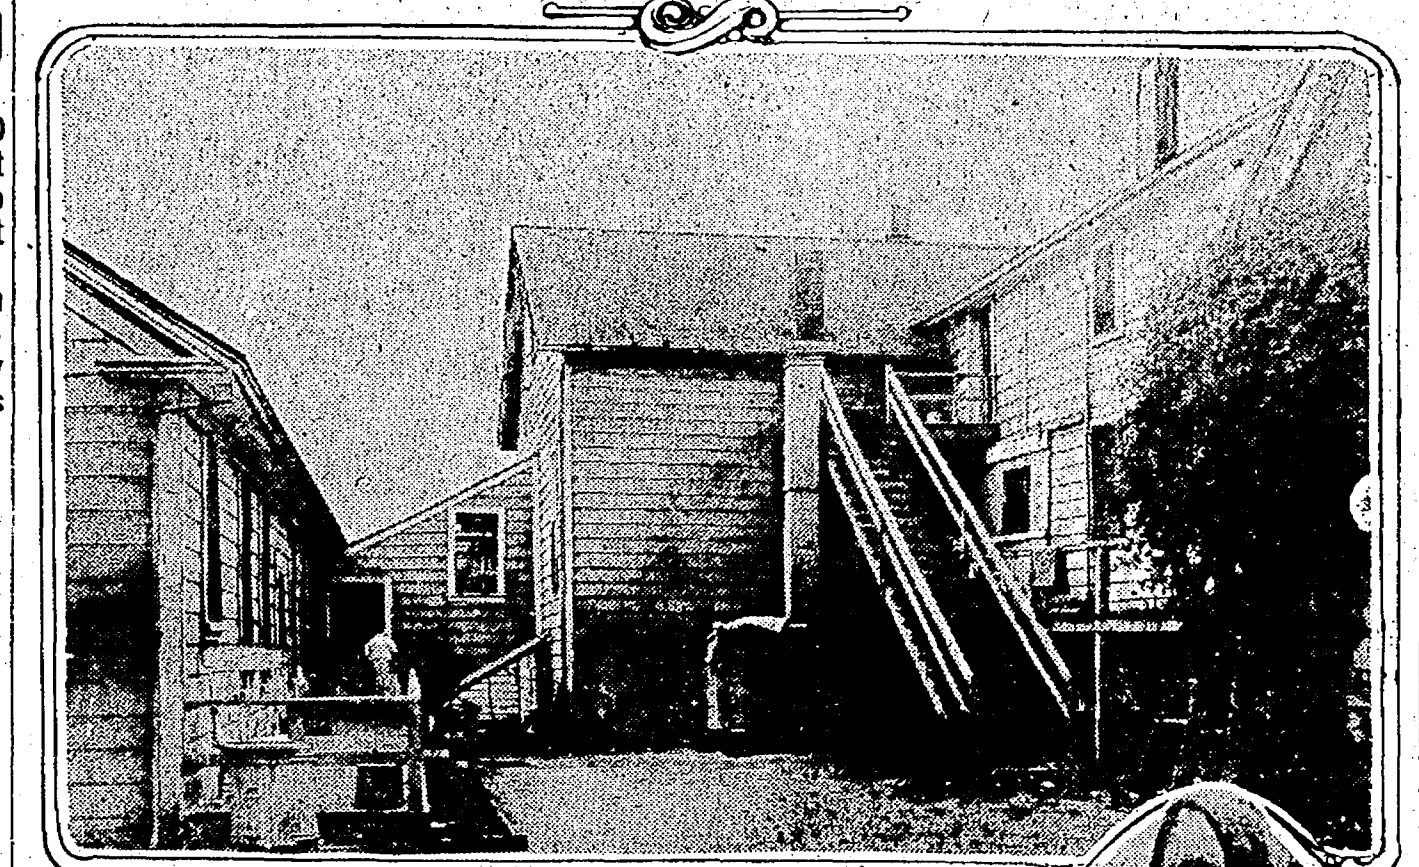

DIXON'S
GRAPHITE
Automobile
LUBRICANTS

do the trick. They are highest grade mineral grease and Dixon's selected flake motor graphite, the only form of graphite that will not ball-up or pack under pressure. They cover the bearings with a durable, oily veneer that keeps metal from metal and lets graphite ride on graphite.

Dixon Lubricating Chart sent free upon request.

DENTIST USES FAMILY CHAIR INFIRMARY IS COUNTY'S SHAME CLINIC IS FAR FROM HOSPITAL

Court in rear of women's quarters at infirmary and aged inmate of institution. Note small windows facing on court. It has been suggested that this ramshackle building should be used as a men's dormitory when the women move to the new unit just completed.

Bell Rings and Aged Inmates Flock to Occasional Tooth-Pulling

(The method of providing dental care for the inmates of the County Infirmary is described in this, the eleventh of the series on the shame of Alameda county. The first article, published September 17, described the wretched, sweltering tent in which a smallpox patient is isolated; the second, the mingling of maternity cases with chronic sufferers and the feeble-minded in one ward; the third, the violation of the State tenement law in the housing of indigents; the fourth, the leper colony; the fifth, the loathsome barracks ward; the sixth, the porch-ward waiting room and the impressions made upon a patient coming to the hospital for temporary aid; the seventh, the problems of overcrowded dormitories, and of the intermingling of hospital cases and indigents; the eighth, the isolation of communicable diseases, such as it is; the ninth, a little girl who has been an inmate for almost two years, although there was no place for her and no means of training her; the tenth, the haphazard arrangement of the present buildings and the wastefulness of erecting more temporary structures. The articles attack no one—they assail a condition in the hope that the voters may be awakened to the need of providing a remedy before disgrace is converted into pitiful tragedy.)

By HARRY L. SULLY.

Somewhere near the women's quarters a bell was ringing. I asked what it was.

"That is to call the old women," I was told. "We are going to have a tooth-pulling."

Supervisor John Mullins had brought Dr. J. P. Maher, dentist, employed by the county, out in his machine to care for a number of complaints made by inmates as to their teeth. Mullins and the dentist had just arrived.

To the question as to where the dental clinic could be found, there was no response at first. Then it was explained that it was "anywhere."

"Well, but is there no dental chair? Where does Dr. Maher operate?"

METHODS ARE SIMPLE.
The explanation was simplicity itself. Here it is:

Any chair will do. The doctor visits the women's quarters and the old women are called in. A chair is placed in the middle of the room and they take their turns.

Sometimes one who has complained will hide away when the bell rings and the message goes out that the dentist has come. But usually they are glad to be relieved of whatever pain and inconvenience they have suffered, and they come readily to the call.

Dr. Maher and the supervisor marched to the women's quarters, the dentist with his case of instruments in his hand. The "clinic operating room" was quickly improvised and the dental work was commenced. The old women came, one at a time, some brave, some fearful of the ordeal.

It was quickly over, and the dentist

and supervisor departed. There was not much time to be spent at the institution, as the journey out and back consumes an hour or an hour and a half. This is a good deal of time in the busy life of a busy professional man, merely to be spent in traveling.

DENTISTRY NECESSARY.

At the County Infirmary there are about 630 inmates. They range in age from children of 8 or 9 years to extreme old age.

And yet Alameda county cannot afford a dental chair and common equipment of a dental office at the infirmary.

Modern medical science has traced many of the ills from which we suffer to the teeth. Dental hygiene, dental prophylaxis, the repair and care of the teeth—these are considered as fundamental necessities.

But the amount of care that is possible in so rudimentary a dental clinic as a household chair and a case of instruments will not bear the scrutiny of the needs of today.

There is no criticism here of Dr. Maher. With the time and tools and opportunity at his disposal he does all that can be done.

TRAVELING GOOD.
Where the needs of the case are so serious that they cannot be cared for with a household chair and a visit from the dentist, the patient is taken down to Infirmary Junction, about a mile from the infirmary, placed on a street car and given car fare. Then he or she travels to the clinic of the Oakland College of Medicine, some fourteen miles away.

Application was made some time ago for a dental chair and appliances to be installed at the infirmary hos-

pital. But the Board of Supervisors considered that this would be an unnecessary expense, as the county has already purchased apparatus and instruments for the clinic at the College of Medicine. So the arrangement has been put into effect to send the aged inmates of the infirmary to the clinic in Oakland when they need dental work more serious than the most rudimentary tooth-pulling.

FUNDS FOR NIGHT SCHOOL WANTING

Large Enrollment Presents a Problem to Board of Education.

So many men and women desire to join night classes conducted by the Oakland school department that the funds necessary to engage the necessary teachers, an extension of the night school system during the present term may not be possible, members of the board announced at a meeting last evening. The matter will be further discussed at a meeting of the committee of the whole, when some way may be arranged whereby the funds may be obtained.

About 900 men and women now attend night school here. Between 400 and 500 more seek the opportunity of enrolling. The teaching force is now but large enough to care for the present enrollment. Director Harry Boyle made a plea for the extension of the system and the addition of more classes at last night's meeting, and it was upon his demand that the board decided to consider the matter as a committee of the whole.

The board last night adopted plans and specifications prepared by Supervisor Archibute, John J. Donovan for an addition of four rooms to the University High School, and advertised for bids for the work. It is estimated the addition will cost \$15,000.

Three boys are to travel a score of miles daily to attend the Fremont High School. They are residents of Suisun, where there is no high school district.

The board of education will give each \$5 monthly as part payment of their transportation. This money is paid under the provisions of a state law relating to school students who are compelled to travel long distances to gain the benefits of the upper classes.

But the Board of Supervisors considered that this would be an unnecessary expense, as the county has already purchased apparatus and instruments for the clinic at the College of Medicine. So the arrangement has been put into effect to send the aged inmates of the infirmary to the clinic in Oakland when they need dental work more serious than the most rudimentary tooth-pulling.

S. P. INCOME GAINS 50.14 PER CENT

Revenue Figures of Railroad Indicate Era of Prosperity.

NEW YORK, Sept. 25.—A gain of 50.14 per cent in net income is reported by the Southern Pacific Company, in its detailed report for the fiscal year ended June 30 last, that item increasing from \$20,570,319 to \$30,935,254. The gross income, increased from \$49,447,882 to \$60,333,906, an increase of 21.64 per cent, and net revenue, from railway operations increased from \$42,111,832 to \$55,250,570, a net gain of 31.30 per cent.

The Southern Pacific company was materially benefited by the heavy travel to the San Francisco exposition and additional income from its holdings of stock in other enterprises, as well as various other properties, including the Associated Oil Company of California.

The company's investments of \$58,915,652 show an increase of \$16,292,999 over the previous year, these including stocks, bonds and notes. Its operating expenses of \$18,388,707 are but slightly increased over the previous year.

Its gross earnings of \$152,694,228 are the largest in the history of the company, surpassing the record of \$148,101,101 by \$9,593,127, and a gain over 1915 of \$2,828,654.

In his review of the year's operations, Chairman Julius Kruttschnitt says: "The interruption of steamship service through the Panama canal since September 18, 1915, has minimized sea competition and has restored to you companies and lines the freight which had been diverted from them by the frequent steamship service through the Panama canal during the previous year, and by the low rates then prevailing. Nearly all the steamers which had operated in the canal found more profitable employment in consequence of the increased demand for steamship service owing to the European war and they have not been restored to regular service between Atlantic and Pacific ports since the reopening of the canal upon the return of normal conditions, however it may safely be said that the intense competition of the steamship lines will be encountered again."

SANTA FE REVENUES GROW.
NEW YORK, Sept. 25.—Gross operating revenue of the Atchafalaya, Topeka and Santa Fe railroad for August showed an increase of \$2,344,485 and net operating revenue increased \$1,632,515.

For the year ended August 31, the company shows a 6.28 per cent increase in property investments compared with 5.03 per cent in the preceding year.

Seek to Oust Estate Manager

SAN FRANCISCO, Sept. 25.—Charging mismanagement of the estate of Mrs. Mary H. Bowen, who died in 1914, Mary Anthony, one of the legatees under the will, today will ask the county clerk's office, asking for the discharge of E. W. Putman from his stewardship. Anthony's petition represents a number of legatees.

The petition questions two accounts of Putman, stating that he has received in particular one item of \$5000 paid by Putman to Osgood Putman, brother, and Mrs. Mary Bowen, the widow of a wealthy merchant of this city.

War Wedding At Castle Eden Buddle, U. C. '12, Groom of Miss Mann

From Shotton Hall, Castle Eden, up in Durham, England, comes the tale of the hurried wedding of a University of California man—Geoffrey Armstrong Buddle, '12—and Miss Elene Mann, a charming young English girl, who has been waiting since the first days of the war for the coming of the coveted "leave" when her soldier-lover should come back from the wars to make her his bride.

And it came—when no one was looking—on August 22, soon after Lieutenant Buddle had reached France with his regiment, fresh from the grueling campaigns of Egypt and the Dardanelles.

On August 23, the young soldier, lean and brown, was at the side of his sweetheart up in Durham.

They had been apart for eighteen months, months of longings and hopes and forebodings, and now the wait was over—over for five long, beautiful days. And then back again to the Somme, and back again to Durham.

A hurried gathering of the dearest friends at Castle Eden on the next morning, a little white frock and a veil long lain in lavender, the minister, a little sister in white, flowers from tearful neighbors' gardens, and the lovers were one.

Off they went to London, where they had five days to themselves—five beautiful days of dreams.

And then down to Folkestone, where the five beautiful days came to an end. And the soldier husband was off for France.

Of such was this the war merriments of women.

Young Buddle was in London at the breaking out of the war, having taken a post-graduate course in King's College, in engineering. A New Zealander by birth, and a Californian in spirit, he was one of the first volunteers to offer his services to the king.

He was assigned to the engineering corps and had seen active service almost from the first boom of the guns in France.

When in the University of California he was associated with the Abasco Club, a member of the Sigma Xi honor society, and was one of the most brilliant men of his class.

Speaking of his bonny, little bride, he says: "We hadn't seen each other for eight months, but we found we hadn't changed much, but it took Elene a little while to get used to me again. I am so awfully awkward and gauche. I've lived like a savage for so long, and haven't spoken to anyone but soldiers."

How long will the gods of war keep the one in France and the other in Durham?

FRUIT 'COP' NEW HIGHWAY GUARD

Autos With Walnut Crop and Grapes Halted by Officer.

MARTINEZ, Sept. 26.—Contra Costa county has commissioned a new variety of officer under the designation of "fruit cop." This officer, for his duties those of protecting the walnut growers, vineyardists and ranchers along the highways of the county against the pilfering autoists.

Sunday Oakland and San Francisco send hundreds of auto parties into this county and as a result they take back the bay cities hundreds, even thousands of dollars worth of produce from the farms along the route. Many complaints have been made and yesterday Special Fruit Officer Don Williams landed twelve "fruit nickers" in his net. The parties have been notified to appear and explain.

Walnuts are selling at 20 cents per pound or better and the load taken from one automobile was valued at \$4.40 and in addition there were 12 or 15 pounds of grapes in the bottom of the machine. The farmer falls to see the pleasure in these self-invited invasions.

Speed Deputy Walter Lamp notified four speeders of Oakland and San Francisco to appear and settle for vio-

Women's Club

The Oakland Club is beginning to campaign in earnest this year for means to erect a new clubhouse on the Adams street lot purchased over a year ago. The first step this season is a large party the club is giving for the benefit of the clubhouse fund tomorrow afternoon at Hotel Oakland.

There are to be fifty tables in charge of a group of matrons under the direction of Mrs. Frederick H. Greene, chairman. These will be the members of the permanent committee appointed for the year: Mrs. Charles F. Taylor, Mrs. Nellie Nelson, Mrs. H. C. Petray, Mrs. John R. Smith, Mrs. E. R. Chadwick, Mrs. W. B. Smith, Mrs. Grace Taylor, Mrs. Helen Kidd, Mrs. R. P. Day, Miss Nellie Schott and Mrs. J. B. Cruz.

This evening the "Oakland Club" evening at the "Try Oakland First" fair, and several members of the club will be taking the speed trials. H. H. Magee of Alden Farm, Fruitvale, is charged with traveling forty miles an hour; C. A. McCarthy of 138 Stewart street, San Francisco, is going thirty-five miles an hour. It is alleged, when he passed Lamp, while Pote Le Borghe of 341 West street, Oakland, was doing forty miles according to Lamp. E. B. Burgess of 1728 Broadway was hitting it up for home for thirty-five miles an hour when spied by the officer.

An Effective Laxative For Growing Children

Dr. Caldwell's Syrup Pepsin Is Highly Recommended as a Family Remedy.

In children the slightest irregularity of the bowels has a tendency to disturb the entire digestive system, and unless promptly remedied invites serious illness. The experienced mother knows that by training her children to regularity in this respect, and when occasion arises administering a mild laxative, she will have little need for the doctor's services.

Mrs. Leo Weigand, 3251 Central avenue, N. S., Pittsburg, Pa., whose two boys, Frank and Joseph, are shown in the illustration, writes that she has found Dr. Caldwell's Syrup Pepsin a most effective laxative, not only for the children but also for herself, and that she will always keep it in the house to use when needed. Dr. Caldwell's Syrup Pepsin is a combination of simple laxative herbs with pepsin that acts easily and naturally, without griping or other pain or discomfort. It is pleasant to the taste so that children like it, and is equally effective on the strongest constitution.

Dr. Caldwell's Syrup Pepsin can be obtained at any drug store for fifty cents, and should have a place in every home. It will save many times its cost in lessened doctor bills and maintain the health of the entire family. To avoid imitations and ineffective substitutes be sure to get Dr. Caldwell's Syrup Pepsin. See that a facsimile of Dr. Caldwell's signature and his portrait appear on the yellow carton in which the bottle is packed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 465 Washington St., Monticello, Illinois.

Your Bank

The First National Bank is the kind of bank you desire—a bank which will adapt itself and its service to your needs, great or small.

It has the facilities for handling business of any proportions, and the desire to serve, which makes every depositor feel that his business is welcome. For the past forty-one years it has served the business interests of this community.

It is the bank you have been looking for—make it your bank today.

ATTEMPT MADE ON ATTORNEY'S LIFE

Bullet Through Window Narrowly Misses Head of Prosecutor.

LAKEPORT, Sept. 26.—While sitting in his office, District Attorney H. B. Churchill narrowly escaped death at the hands of unknown parties. A bullet crashing through the window struck the desk at which Churchill was sitting.

The district attorney states that he received a threatening letter a few days ago which was not signed, warning him against prosecuting a liquor case from Adams Springs.

With the assistance of Detective Casey, Churchill has made charges in thirty-two cases for selling liquor in violation of the county ordinance. Eight of those arrested entered pleas of guilty and paid fines of \$25 each for delivering liquor in less than two gallon lots.

Detective Casey has been arrested on a warrant charging burglary and obtaining money under false pretenses on the complaint of a guest at the Adams Springs hotel.

Junk Dealer's Eye Is Sharp Optic

A junk buyer with an eye to business is being sought by the police today at the request of H. P. Birr, 168 West street, who says his wife yesterday sold a pair of automobile rims worth \$11 for five cents. Mrs. Birr says she believed the rims to be of no value and thought she had the best of the bargain when the junk buyer gave her five cents.

NEW PRESIDENT TO STUDY FINANCES

Argentine's Condition After the War to Be Protected by Executive.

BUENOS AIRES, Sept. 26.—Hipolito Irigoyen, who will become president of Argentina October 12, is reported devoting all his time to the study of his country's financial condition, in anticipation of post-bellum money and trade troubles.

This is only a report, for the president-elect is such a hermit that almost nobody knows exactly what he is doing. He is living at present at his city residence in Buenos Aires instead of on his ranch. His town house is presided over by a very old Spanish woman, with no more idea of politics than an armadillo. The numerous excited personages who want to see Irigoyen have to seek appointment through the medium of this ancient dame. They are seldom successful.

However, the report concerning the president-elect's financial studies rests on excellent authority. Though times are hard in Argentina, the country, from a money standpoint, is basically in an excellent condition. It has one of the largest gold reserves, proportionately, of any country in the world. Irigoyen is said to believe, however, that the South American republics will face a situation of grave stress at the end of the war in Europe which, presumably, will come some time early in his administration. He is believed to hold that the questions of finance and of immigration will be mingled, and that immigration to Argentina must be encouraged. That is, though the country has money enough and immense poten-

Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Counterfeits, imitations and "Just-as-good" are but experiments, and endanger the health of children—Experience against Experiment.

What is CASTORIA
Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It contains neither Opium, Morphine nor other Narcotic substance. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhoea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

W. & J. SLOANE'S FURNITURE SALE

NOT in years have we offered in a special sale such an immense assortment and such remarkable price values as are now presented. The quality of Sloan furniture is well known. Better furniture—in correct design, perfect cabinet-work and beautiful finish—is not obtainable. Cheaper furniture cannot be good furniture, and its purchase is only wasteful extravagance. The cost of manufacturing furniture has advanced, and is still advancing. It will be years before its declines, if ever. Our stock embraced in this sale contains quantities of pieces and sets purchased before the advances began, and consequently our prices are astonishingly low.

BEDROOM FURNITURE		Some specimen reductions are here shown, but it must be remembered that on our floors will be found hundreds of pieces and sets not listed here.		OCCASIONAL PIECES

TUESDAY, SEPTEMBER 26, 1916.

OPPOSE HIGHER RAIL RATES.

Every city in California should actively cooperate in the effort, started in Oakland last week, to convince the Interstate Commerce Commission that the abolition of the schedule of differential rates for Pacific Coast cities would fatally injure many California industries. The commission several weeks ago issued an order nullifying the special schedule for transcontinental freight rates, but has postponed the date upon which the order is to become effective until December 31.

Such an order should not have been issued. The present rate schedule for rail hauls, giving coast cities a lower mile rate than that accorded intermountain cities, was adopted upon the plea of the transcontinental railroad operators. It was represented that differential rates were necessary in order to permit them to compete with freight steamers plying through the Panama canal. Estimates for the cost of operating business concerns were made and many new business establishments were built up on the coast on the basis of these rates.

They were assumed to be permanent. The laws creating and delegating powers to the Interstate Commerce Commission provide that once a rate is lowered to meet water competition it shall not be raised again except for some reason other than the elimination of water competition.

In presenting their petition for the repeal of the present schedule and for the authorization of a higher schedule the railroads, and the steamship companies as well, were brazenly frank in stating their reasons. They did not claim that cost of railroad operation necessitated the charging of a higher freight rate, nor did they give any other economic reasons for their request. They were content to say that the war rates for ocean freight had enticed practically all the vessels engaged in the canal trade in 1914 to the trans-Atlantic trade; that ship competition is now negligible, and that even after the war ends maritime rates will be so high as to prevent canal steamship lines from restoring the original rates.

The prayer of the railroads was briefly this: "Canal rates and the absence of shipping facilities make it possible for us to exact a higher profit from the consumers and shippers of the Pacific Coast, and we want the money." Officials of the Luckenbach and the American-Hawaiian steamship companies were kind enough to appear before the Interstate Commerce Commission and confirm the statements of the railroads as to conditions. Being in a generous and thoughtless mood, and ruling in a presidential campaign year, the commission allowed the higher schedule.

Judging from the wording of the Interstate Commerce acts and from the intentions of Congress as shown in the records, it is plainly illegal to permit the railroads to change the present schedule upon the showing they made. But more than this, such a change will have a disastrous economic effect upon hundreds of California industries. It will mean an additional operative charge of a half-million dollars to one plant in Alameda County; it will mean millions in additional and unjust expenses to business in the bay district.

It is eminently the part of commercial organizations and municipal administrations of California to collect information regarding the injurious effect of the proposed higher rate schedules and lay it before the Interstate Commerce Commission. The facts will be convincing, providing the commission is willing to be convinced. Every city should assist in showing just what will be the individual and collective effect of the proposed schedule on the industries of the State.

The French government has posted in places of public conveyance a warning to patrons which in French means "Beware, hostile ears are listening to you." By changing two letters, facetious soldiers have made the sign read, "Beware, hostile ears disgust us." As is often the case, the soldier has uttered the more manly sentiment; also he has made a statement of world-wide application. At all times and in all

places, in war or peace, there is encountered the person who is by nature or perverted choice an antagonist of progress and constructive effort. He cannot be explained on the simple ground of a difference of opinion, because his temperamental make-up seems to require that he be eternally hostile to somebody or something. He must always be engaged in a "fight." The French soldier's expression of disgust fits cases in neutral nations, and in Oakland.

CHICO'S DELEGATION TO OAKLAND.

Chico sent a splendid delegation to attend the industrial exposition and return the visit to Chico a few months ago of representatives of the Oakland Chamber of Commerce. It is composed of 125 representative business men and they will return to their home city with a new and larger understanding of Oakland.

Chico and Oakland have something in common. The former is in the center of one of the richest valley agricultural districts in the world. It is a growing city and its residents are attuned to the spirit of progress. It has a magnificent future and will vie with other favorably-situated communities in contributing to the wealth and prosperity of California. Oakland also is in an era of prosperity and facing still greater opportunities. Her destiny is a highly diversified industrial life. Each city will continue to produce what the other requires and that ought to mean congenial business relations.

Visits of such delegations as Chico has sent to Oakland are of inestimable value both to the visitors and to the host. The good effect of them is already being felt through the avenues thus opened for cooperation between the cities of the State in objects for common benefit. They ought to be repeated with greater frequency. If the Chico visitors were as much pleased with their trip as Oakland was in welcoming them everybody is satisfied and hopeful for a strengthening of the bonds of community friendship.

THE BOY SCOUT.

The TRIBUNE has a high regard for the Boy Scout. He is a young citizen of more than usual usefulness, and there are fewer marks against him, on the whole, than the youth who has not had the advantage of "scout" training.

One of the main advantages of the Boy Scout curriculum is that it impresses the small boy that even he has some responsibility in society and that he can easily and happily be of some worth. The training instills in the youthful mind a sense of discipline and order; it instructs in the rules and regulations for public peace and safety; it plants ideas and a practical knowledge of measures for individual and collective safety and for the relief of the endangered, the distressed and the unfortunate.

More than this, the member of the Boy Scouts' organization gets an early insight into the duties of manhood; he is shown how to protect himself and is taught self-reliance. At the same time, he is made to realize that a courteous consideration for others does not dissipate personal opportunity, but greatly enhances personal opportunity and the enjoyment thereof.

In short, the Boy Scout seems to get appreciably closer to the ideals of good citizenship. There is a movement in Oakland at present to extend these opportunities to more Oakland boys. All who are in a position and are disposed to help will find their investment certainly profitable.

A study of the figures in the recent Illinois primary are interesting. Returns so far at hand show that the three candidates for the Republican nomination for governor received approximately 150,000 more votes than were polled by all the Democratic candidates for that nomination. The total Democratic vote falls a little short of being 60 per cent of the vote cast for Wilson in 1912, while the total Republican vote approximated 80 per cent of the vote cast for Taft and Roosevelt combined. The display of strength shown by the Republicans is a barometer indicating the result of the election in that State in November.

Marconi, the genius who invented or had a lot to do with the invention of wireless telegraphy, says the United States cannot be invaded; and a Cleveland paper registers a hit when it hopes he is right, but observes that as a prophet he is a great inventor. When we see how armies have penetrated European countries notwithstanding the most intensive fortifications, we do not seem to have much warrant for considering ourselves impregnable. Invading forces might not get as far inland as Chicago; but San Francisco and New York are worth considering in this connection.

The women of Sacramento have laid rather ambitious plans for the improvement of State Fairs. Through the Woman's Council they have started a campaign for the improvement of the fair grounds, for a permanent art exhibition, for a fashion show, for an annual opening ball, for a '49 ball, and for automobile racing. They have a year before first results are figured up, and they will have at least the good wishes of the men, who haven't done as much as they should.

Statisticians tell us that there is enough gold in the United States to give every "soul" \$24.80. Has everybody got his share?

NOTES and COMMENT

"Fish boat wrecked in race for tug job." Boats, as well as men, should keep to their legitimate business.

In one way the new Greek premier, Nikolaos Kalogeropoulos, is not as satisfactory as was Premier Zalmis.

Physicians have summoned an aphasia victim's wife to come and help revive his memory. Is the patient willing to undergo the treatment?

The owners of the Lusitania are willing to admit a liability for the fearful loss of life to the extent of \$91,298. Doubtless this will prove satisfactory to the present administration.

Ostriches are no longer popular in San Francisco's big park because their plumage have gone out of fashion as millinery decorations. Poor birds! They now realize what a fickle thing is a woman's fancy.

It may be stretching a point to say that "As Maine goes, so goes the nation," but it is significant that the Republican candidate for governor in the recent election got 5000 more votes than the combined vote of Taft and Roosevelt in 1912.

Official Announcement: "The President will not take an active part in the campaign." His series of speeches at Shadow Lawn and his contemplated tour of the Middle West are merely to explain his personal war on the late General Huerta and the reason for Villa being still alive.

This first appeared in the Riverside Enterprise: "The other day a man shot his wife, and then shot himself, the former being injured so slightly that she was in good shape to attend the chap's funeral. The laugh seems to be on him."

The Marysville Appeal changes its tune about poets: "There's a grain of good even in an amateur poet. We told yesterday how that lightweight poet had sent us a 'poem' and neglected to put a two-cent stamp on the envelope, with the result it cost us the two cents. Believe it or not, that feather-brained 'poet' yesterday sent us the two cents."

A few kinds words from the Democratic Californian of Bakersfield: "Our old friend Charlie Curry, Congressman Curry, if you please, is back in California, and he is running for Congress again. Probably he'll be elected, and if he is, this paper will continue to believe that the state will always have a good public servant so long as Curry is on the job."

The San Luis Obispo Tribune has this concerning a senseless and malicious practice: "The Automobile Club of Southern California, which has been putting up road signs in various parts of the country, have offered a reward of \$50 for information leading to the arrest of any persons who practice on the signs with their shotguns. Many signs have been plugged."

Segregation is suggested by the Marysville Appeal: "This being America, we can't advocate that the vagrants and bums be kept out of all the city parks. But as the bums have taken possession of Cortez Square, we rise to suggest they be given undisputed possession of that breathing place. And that the other parks in the city be reserved for the women and children of Marysville."

From the report of the Silk Association of America: "The very short skirts worn by women have given fresh impetus to the silk worm industry." In translation this means that silk stockings must now be of real silk. They have not—an illusion must die—always been so. Perhaps further investigation will disclose that the mulberry tree culture is receiving more attention than it has in the past.

Primaries by "heats" (similar to trotting races), as they are staged in some states, are difficult to understand. In the preliminary "heat" in South Carolina, for example, there were six candidates, and former Governor Bleasner ran 20,000 ahead of Manning, who was second. In the "run-off" between these two entrants Manning beat Bleasner by 5000. As an outdoor sport primary elections in the South are rapidly gaining a favored place with racing, cock fighting and lynching.

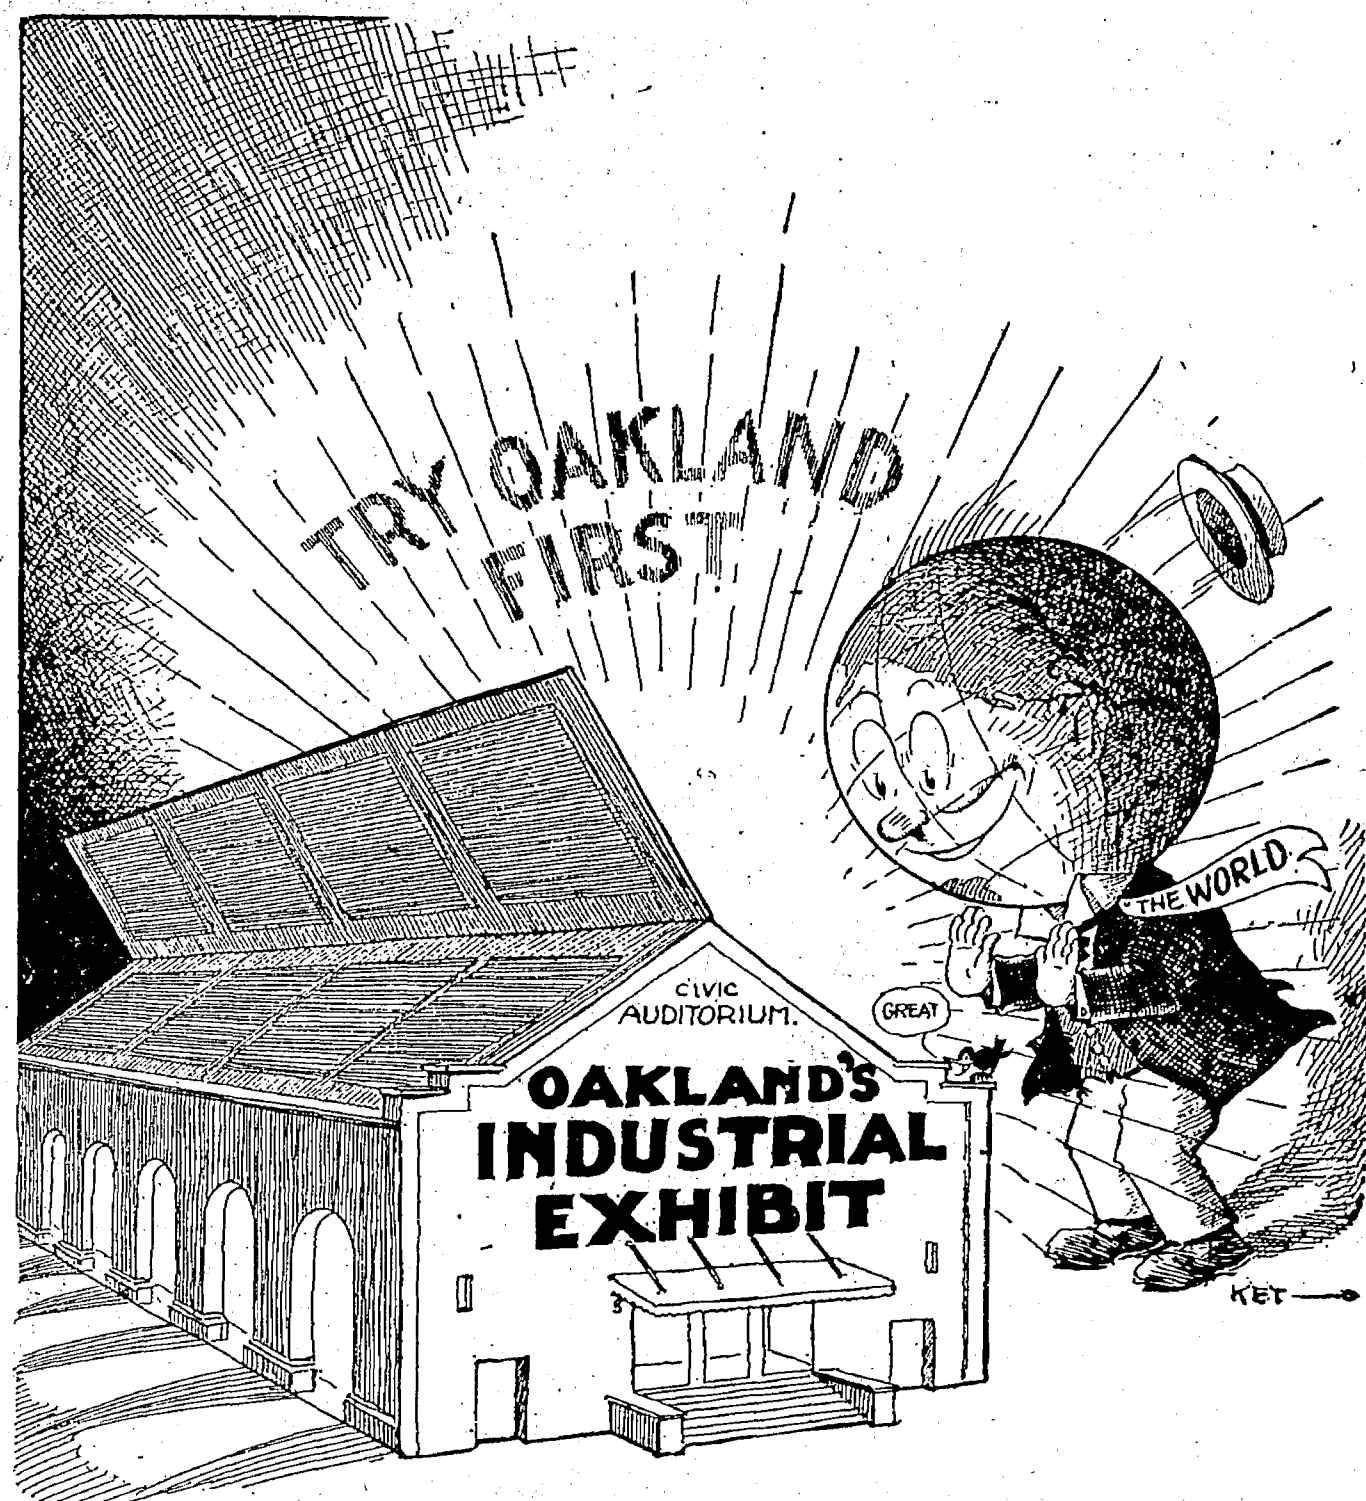

SPIRIT OF THE STATE PRESS

Supervisors of Southern California counties met here to discuss uniform legislation on the weight of automobile trucks using public highways, and adjourned without definite action to meet at Los Angeles next Friday. The supervisors propose to limit the weight of freight-carrying machines, claiming new concrete and macadam highways are being damaged by excessive loads.—San Bernardino Sun.

Disaster hits the newspapers of every town. Not long ago Red Bluff lost the two depot lunch wagons that were the source of the only real live news of the city. Now Chico has had an affliction. The trustees have ordered the ancient awnings down. This will remove all the incentive for local editorials in the Chico papers.—Marysville Appeal.

Dedication services for the log cabin, which has been built and the plans arranged by the ladies of Vendome Parlor, N. D. G. W., will be held this afternoon at 2 o'clock, in Alum Rock park, where the cabin is situated. Although the building is to be a place of rest for the pioneers, the ladies of Vendome Parlor have been entirely responsible for the accomplishment of the scheme. Years ago a pretty little hill was selected by the parlor as a suitable place on which to erect the structure and the spot was beautified by planting trees on its slopes. The cabin is not to be open to the general public, but is for the exclusive use of pioneers. There will be five keys, distributed as the committee decides. The idea is a charming one and the building, which is constructed of Santa Cruz redwood logs, donated by Mr. Matty, blends perfectly with the rustic beauty of Alum Rock canyon.—San Jose Mercury-Herald.

OPENING HIS EYES!

BITE IN SELF-DEFENSE ILLEGAL

That self-defense is no justification for a dog bite is held in the latest case on that point, the court ruling that it is sufficient proof of the vicious propensity of the dog to show that it has had its first bite, even though the biting was done to protect itself. Plaintiff in Tubbs vs. Shears, 155 Pacific Reporter, 549, admitted that he knew his dog had attacked one Hunt prior to plaintiff's alleged injury, but contended that it was a disputed question as to whether the dog was justified in its attack and that the jury should have been allowed to determine this and also whether knowledge of such circumstance was sufficient to constitute notice of the dog's vicious character.

Commissioner Galbraith, speaking for the Supreme Court of Oklahoma, says: "Under the law it was not a question for the jury to determine as to whether the dog was justified in biting Hunt, since self-defense is not justification for a dog bite, but the fact that the defendant knew that this dog had bitten Hunt was sufficient to charge him with notice of the vicious character of the dog, and to render him liable to anyone suffering harm on account of the dog. The rule is announced as follows: 'The law clearly recognizes a right in the owner of a vicious dog to keep

it for the necessary protection of life and property. But as such a creature is inherently dangerous, one assuming to exercise the right to keep it does so at his own risk, and is held strictly liable for any harm resulting to another.'

The court holds further that negligence in its ordinary sense is not the ground for liability in such case:

It is the keeping of the animal, with knowledge, either actual or constructive, of its dangerous or vicious propensities, which creates the liability. * * * Nor is it necessary that the dog's disposition or peculiarity be such as to render it liable to or inclined to bite all with whom it comes in contact; it being held in a number of cases that, if the dog had bitten one person prior to the injuries sued for, knowledge thereof is sufficient notice of his character to bind the owner. * * * In the old case of Smith vs. Pelah (2 Str. 1264), which has never been departed from, Lee, C. J., "ruled that if a dog had once bit a man, and the owner having notice thereof, keeps the dog, and lets him go about or lie at his door, an action will lie against him at the suit of a person who is bit, though it happened by such person's trespassing on the dog's toes; for it was owing to his not hanging the dog on the first notice. And the safety of the king's subjects ought not afterward to be endangered."

OHIO WAKES UP.

It was the Phoenicians who invented the alphabet. But Ohioans who discovered its political possibilities. No observer of the recent primary returns can have failed to notice the influence that the alphabet played in forming the rival state tickets for the fall campaign. As a consequence the next legislature is likely to be asked to revise the primary laws.

The primary invites a free-for-all race for each important nomination. One needs no political backing, no widespread popularity or conspicuous fitness to become a formidable contestant. At least one prominent state office in Ohio is today held by a man whose best friends admit that his nomination was due to the accident that placed his name at the head of the alphabetical primary ballot. Once nominated, the general strength of the ticket carried him to victory.

This year's primaries emphasized anew the importance of having one's name begin with A, if one desires political preferment. In closely contested cases the advantage has been with those whose names entitled them to places near the top of the alphabetical lists. Without criticizing any of the nominees presented to the voters of Ohio through the agency of these primaries, it may be allowable to assert that because one's name begins with A or B is not conclusive evidence that he would make a better state official than one whose name starts with W or V.

An obvious measure of justice would be to make the general primary ballot rotating, as the present judicial ballot is—that is, give each candidate for each office a chance to head the list of would-be nominees upon a certain proportion of the ballots. This would give Mr. S. and Mr. T. an equal chance with Mr. A. It is a reform that the next legislature may well consider.—Cleveland Plain Dealer.

PROUD OF HIS DEBTS.

It amuses most of us to recall some of the ideas of life that we had years ago. At the end of the first year of our married life we owed only \$75. We knew just whom we owed and the amount we owed to each firm or person. At that time, in our innocence, we really believed we would some day be out of debt. Yes, we did. Tears come to our eyes as we look back at our poor, humble self trying to get along on only \$75 indebtedness. We can see ourself going home on Saturday night with a bag of apples, and we can see Martha eating one. She pronounced it the best apple she had ever tasted. By going in debt a little more we could have had apples two or three times a week, but we just simply didn't know enough to do it.

However, we were quick to learn, and by the end of the next year we owed nearly \$200. Since that time we have gone deeper and deeper in debt, until now we owe an amount that gives us a standing in the community. We are not one of those ordinary fellows who owe nothing but a few dozen apples, all less than \$10. In two or three places we owe more than \$100, and we have many, many accounts of as much as \$25 each.—Fort Worth Star-Telegram.

THE GOLFERS' RECESSIONAL.

Patron of Golfers, known of old, Lord of our game from week to week, Beneath whose kindly hand we hold Dominion over spoon and cleveland, Saint Andrew's shade, be with us yet, Lest we forget! Lest we forget!

The arguing and fighting dies, And we are weary, worn of soul— Still stands thine ancient sacrifice, A "high one" at the Nineteenth Hole. Saint Andrew's shade, be with us yet, Lest we forget! Lest we forget!

If, drunk with sight of Par, we loose Wild tongues that all suffers scoff— Such boasting and deeper in the course, Or lesser broods that know not golf, Saint Andrew's shade, be with us yet, Lest we forget! Lest we forget!

For allis, whose fond recourse In talk of "if" and "but" and "but," For players who obstruct the course, And putting know how to putt— For bettered lie and unscared stroke— Saint Andrew, mercy on thy folk! —F. Gregory Hartwick, in Judge.

TWENTY YEARS AGO TODAY

The members of the Alameda Ministerial Association will hold a meeting this evening at the Galindo hotel, where they will banquet and later discuss business connected with the association.

The University of California has announced a series of University Extension lectures to be given at the Mark Hopkins Institute of Art during the next six months.

A new matron of the Receiving Hospital is Miss Hattie McDonald, now matron of the Industrial Home for the Blind at Temescal. She will be succeeded at that home by Mrs. Grace McPhail.

A reception was tendered this week to Rev. and Mrs. S. C. Palmer at the Brooklyn Presbyterian church of which Mr. Palmer is pastor, to mark his return from a trip to Honolulu.

MADE GOOD IMPRESSION.

That the visit to Patterson last Tuesday of nearly 100 of the live-wire business men of Oakland was well appreciated by the people of this community was amply shown by the interest taken in the event by the citizens generally and the hearty manner in which they responded to the call of the Chamber of Commerce for machines. That Patterson was chosen as one of the stops on this flying trip through the San Joaquin valley was a compliment to us, and our people recognized it as such and appreciated it. If Patterson made anywhere near as good an impression on the Oakland men as they did on the people of Patterson, then we shall be satisfied. The excursionists were certainly of the right sort and it was a pleasure to meet them and get acquainted. Oakland and Patterson are joined through various trade relations, and these relations as the year passes are bound to grow closer and firmer. There should be a better acquaintance among the business men of the two communities, and there soon will be. If Oakland sends a few more such envoys this way. Only next time we hope they may be able to stay longer so that we may offer them more entertainment and get to know them better.—Patterson Irrigator.

THE YELLOW FLOOD.

Since the first of 1916 this country has received \$331,500,000 of gold from other countries. The flood has overcome the facilities of the government assay office, where the yellow stuff is being melted down into bricks, and it will be weeks before the melting and weighing needed by the gold already on hand can be completed.—Hartford Courant.

THE JESTER.

Then He Got It. He was an Oakland boy and had just joined up. He had received various warnings from pals already in khaki as to behavior, their advice being that he should not thrust himself forward or get in the way. When dinner was served he therefore asked very politely: "Would you mind passing the salt, sir?" Nothing happened. He repeated his request:

"I say, can I have the salt, please?" Still he was ignored. Then forgetting the good advice of his pals, he leaned across the table and lifted his voice: "Hi, 'aint none of you knuck-kneed, splay-footed, hen-brained perchers got enough manners to chuck along the blazing salt when a feller asks for it?"

"Oh, crumbs," said a gruff voice, "why on earth couldn't you have said that at first. 'Dre y' are. Catch?'—J. W. Fryer.

His Deficiency.

"Papa, I want to marry Jack." "Well, why doesn't he come to me? What's the matter with him, hasn't he any sense?" "Sense enough, papa; but no dollars."—New Orleans Times Picayune.

Reassuring.

The Host (to nervous guest)—"Have you seen the presents, old chap?" Nervous Guest—"No, but I should like to, awfully."

The Host—"Well, just a moment, and I'll get a detective to show you around."—London Opinion.

The Consolation.

The Bride-to-Be—"My only worry is about mother. She's bound to miss me terribly."

Friend of the Family—"Ah, well, she can't complain. After all, she's had you longer than most mothers keep their daughters."—Sydney Bulletin.

WHEN THE GODS LAUGHED.

Homer once sang that an uncontrollable laughter rocked the high gods of Olympus as they saw the sugar-loaded Epehaestus hobbling about with the cup of Gany-medea.

The high gods must have roared again when they read the acceptance speech of the Hon. Tom Marshall, in which the little man of Indiana said: "Does the firm consist of Hughes and Roosevelt or Hughes and Hohenzollern?" The laugh of the Olympians would come because they have longer memories than the rest of us. They have not forgotten that it was this same Marshall, creator of the firm of "Hughes and Hohenzollern," who said on May 8, 1915, that the passengers on the Lusitania were fools who got what was coming to them. The firm of Marshall and Tirpitz was then doing business.—Chicago Evening Post.

DARING EXPLORER WINS WAY INTO WALLS OF FORBIDDEN CITY

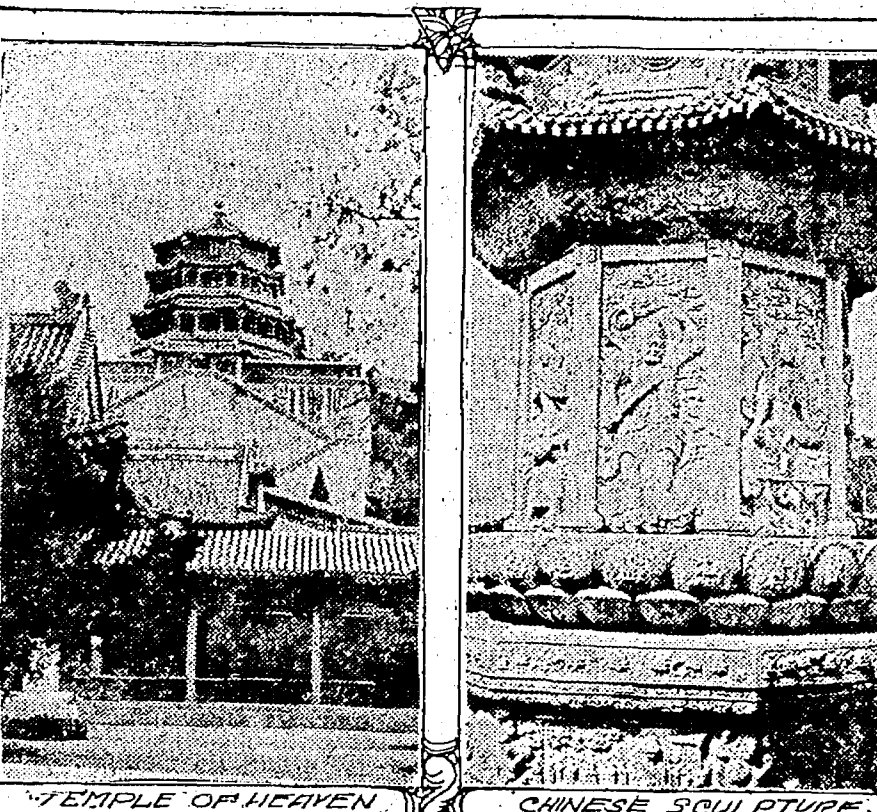

TRIBUNE IS SPONSOR FOR FILM MARVEL

From the days of Marco Polo, the Venetian merchant prince, who traversed Asia, overland in the thirteenth century, and was the first European to visit China, and bring back word of its wonders, the Celestial Kingdom has been a constant source of curiosity for the Caucasian race. Its ideographs, its architecture, its racial customs—all so different from the standards of the white peoples—have maintained a perennial interest for us. Thousands of books have been written on the various phases of that ancient civilization and yet the subject has been barely touched upon.

TRAVEL COSTLY. Marco Polo found traveling costly, and despite the cheaper cost of transportation today, the modern traveler finds the trip to China a heavy drain upon the pocketbook. But, thanks to the advance of science, it is no longer necessary for people to travel, in order to see with their own eyes the sights of a foreign land. And Oakland citizens who are interested in China need go no further than the Municipal Auditorium during the ten days, beginning October 1, to gaze upon sights in Peking that even Marco Polo was not allowed to see.

Through an arrangement which The TRIBUNE has made with Manager George Keefe of the Municipal Auditorium, a marvelous series of moving pictures taken by Benjamin Brodsky, the traveler-photographer, will be shown in the opera house at matinee and evening performances from October 1 to October 10. And in order that the cost may be less to Oakland people, The TRIBUNE will print coupons which will entitle the

Two scenes from moving picture films taken in China by Benjamin Brodsky. These films will be shown at the Oakland Municipal Auditorium October 1-10, through an arrangement by The TRIBUNE. Watch for the admission coupons.

bearer to reserved seats at one-half the regular price, which will be 25 and 50 cents. The plan is thus endorsed by this newspaper to afford school children in particular and the general public in general an opportunity to see these wonderful reels.

Brodsky spent several years in the preparation of the ten reels of pictures and he succeeded in doing what no other man has ever been allowed to do—he secured permission, from President Yuan Shih Kai to enter and photograph the Forbidden City. In granting this unprecedented favor, President Yuan said that he desired the word to become better acquainted with China. Without this permission the photographer would have met death if he had attempted to enter,

and even as it was, he was smuggled in through a hole in the wall.

ENIGMA TO WORLD. China is still an enigma to the rest of the world for all the study that has been given to its history and customs. It is the most densely populated and the least known of all lands. Just as there are portions of Africa that have never yet been trod by the foot of a white man, so there are spots in China that have remained inaccessible to explorers, scientists, missionaries, the American or foreign tourist who visits China seldom ventures from the beaten path and sees only a tiny portion of the gigantic whole.

Brodsky went to remote corners of the empire. He photographed the

HIDDEN LIFE OF CHINESE IS UNFOLDED

sacred well of Wu Shih and dozens of other sights that no white man had seen before. He has really accomplished the "opening of China" in a way, for the pictures which he has brought back are not only the most interesting travel pictures ever taken, but they are of intense interest to scientists who have studied the ancient land.

At the Industrial Exposition this week in the Auditorium, Brodsky has a booth, which should be visited by all who intend to see the films. He has there a fine collection of Chinese clothing and curios. Among the subjects on display is one of the wedding chairs used in the quaint nuptial ceremony among the Chinese.

SMOTHER BRIDES. It is a tradition among the Chinese that the bride, from the time that she leaves her parents' home until she arrives in the house of her husband, must not be contaminated by the air which has been breathed by another man. To insure her immunity from this pollution she is locked in the close chair, which is almost hermetically sealed and carried to the home where she is to reside. If the journey is a long one, the bride is sometimes smothered to death before the nuptial cortege has accomplished the journey. It is estimated that the percentage of deaths from this cause in the empire is nearly 15 per cent.

The wedding ceremony is only one of the hundreds of interesting subjects to be shown in the films, which will be exhibited daily in the Auditorium from October 1 to October 10. The TRIBUNE coupons will be printed during the time the pictures are shown and will be good for the use of any one—man, woman or child.

WIDOWER IS BLACKMAIL RING VICTIM

CHICAGO, Sept. 26.—Edward R. West, vice-president of the C. D. Gregg Tea and Coffee Company, with offices here and in New York, is the "A. R. Wesley" who was victimized for \$15,000 by the national syndicate of blackmailers. It was definitely learned today. West's personal secretary, Egbert Robertson and Hinton G. Clabaugh, federal investigator here, both admitted West was the person. Robertson said West voluntarily told his story of being lured to New York by Buda Godman, supposedly a member of the gang, that others might be warned and the guilty punished.

West was trapped by Buda Godman, whom he met in a cafe several months ago, he said today. They saw each other frequently for several weeks and she induced him to take her to New York with him on a business trip, he states. On their first night there three men knocked at the door of the hotel room and said they were government officers and that the couple were under arrest for violating the Mann white slave act. The woman became frantic and said exposure would ruin her social position. Then the fake officers suggested the affair might be hushed up.

WOULD SAVE WOMAN. West refused to yield to the blackmail and the couple were brought here. Negotiations continued three or four days while the two were held at a hotel here, supposedly as prisoners of the federal government. Finally the woman's pleas that she be not exposed won West and he paid the men \$2,500, and later \$500. Both were released on the payment.

The men who posed as federal agents are supposed to be George Irwin, John T. French and "Doc" Brady, alias James Christian. French was arrested in connection with the Klipper kidnapping several days before West paid the second installment. Irwin and Brady are under arrest.

Buda Godman, who is said to be the former wife of a song writer, is being questioned today by federal agents.

WAS CAREFULLY STAGED. West is a wealthy widower who lives in Highland Park, an exclusive suburb of Chicago. He is vice-president of one of the largest tea and coffee importing houses.

Miss Godman is said to be an associate of Mrs. Helen Evers, who has figured prominently in the kidnapping and blackmailing case. West says he supposed she was a wealthy woman of independent means.

West told today how the plotters carefully laid each detail of the fake arrest, even to having one of their members pose as United States Commissioner Foote. The "hearing" was held in the private rooms of "Commissioner Foote."

Miss Godman is a small brunette. She is exceedingly pretty, with plenty of snap, and federal officers say she is well known in Chicago cafe life.

"I have concluded to sacrifice my personal feelings in this case to save others from like humiliation," West said.

William Butler, chief figure in the country-wide blackmailing conspiracy under investigation in several cities, today pleaded guilty to the kidnapping of Mrs. Regina Klipper of Philadelphia. He was sentenced to eighteen months' imprisonment in the Atlanta penitentiary.

Oakland extended the glad hand to Chicago yesterday and gave the delegation from the city of the north a sample of real East Bay hospitality. The climax of the day of real entertainment came with a visit to the big successful Industrial Exposition now going on at the Civic Auditorium.

Alexander Stewart and the Alameda County Chorus of 350 voices rendered several of their famous selections. Then the visitors thronged through the multi-colored streets of the exposition and were treated to a display of Oakland and Alameda county products.

Among the most popular booths visited that interesting exhibit shown by the California Optical Company was undoubtedly the one that attracted the attention of thousands of spectators the most. Mr. Bitterman, the California Optical Company's manager, had prepared a special entertainment for the evening, and confined the operations of the lens-makers to grinding out nothing but the famous Caltex lenses. The care and scientific accuracy of the lens-maker was shown in detail. These lenses are said to be the most accurate known in the world of optical science.

Several of the visitors had the unique experience of seeing their lenses being ground and finished before the evening terminated. That this is a real Industrial Exposition was thus proved to the visitors, as more than one was enabled to wear new glasses to the beautiful ivory ballroom, where the ladies of the Women's Bureau are entertaining their fair out-of-town visitors.

It is such firms as the California Optical Company that are spreading the fame of Oakland as a real live and progressive city.

PENSIONS

All widows of Civil War veterans, married prior to June 27, 1906, and not remarried since death of soldier, entitled to \$25 per month pension. Information address COMRADE J. H. SHEPARD, Box 277, Oakland, Cal.

Rabbi to Invade Mexican Lines

Will Hold Yom Kippur Services in Army

SAN ANTONIO, Tex., Sept. 26.—For the first time in the history of the American army a Jewish rabbi will hold Yom Kippur, or day of atonement services in a foreign country. This will be when Rabbi Isaac Landman of New York, corresponding secretary of the continental conference of American rabbis, conducts these services, October 8, with Pershing's column in Mexico. He is here today en route to Mexico. For the second time in the history of the modern world Jewish New Year services, September 27-28, will be held out of doors with an army column. The first time was at Metz, Germany, in the Franco-Prussian war of 1870.

Services for both the occasions so important on the Jewish calendar will be held along the great military line in the history of the modern world. Brownsville to San Diego, Cal. Points where the Hebrew soldiers will assemble for the New Year and Yom Kippur are Corpus Christi, San Antonio, on the San Antonio-Austin road, Brownsville, McAllen, Laredo, Eagle Pass, Del Rio, El Paso, Columbus, Douglas, Naco, Nogales, Deming, N. M., and San Diego.

San Francisco Will Vote on Aquarium

SAN FRANCISCO, Sept. 26.—Charter amendments providing for a preferential voting system, the maintenance of a municipal aquarium, a blanket civil service, extending the terms of police judges, raising police judges' salaries and a minimum salary of \$3 for city and county employees are among those submitted to the voters at the November election by order of the city supervisors.

MAJOR WARNER FAILING. KANSAS CITY, Mo., Sept. 26.—Major William Warner, former United States Senator from Missouri, who has been ill at his home here, suffered a relapse late last night. His physician said Warner was losing strength rapidly.

VILLA NEARS AMERICAN EXPEDITION

FIELD HEADQUARTERS, SOMBERWHERE IN MEXICO, Sept. 26, via radio to Columbus, N. M.—Villa and his band is moving north toward the American expedition, according to reports received today at headquarters and described as being from very reliable sources. The bandits are reported to have crossed the railroad at San Andres, where they had a slight skirmish with Carranza troops.

The garrison at Namlulpa presumably is preparing to attempt to prevent Villa's dash northward. General Garza and General Ramos are said to be in pursuit of Villa in the vicinity of San Andres. The Carranza authorities at Madera have ordered the confiscation of all horses suitable for military purposes to engage in the pursuit of Villa. Information from Carranza sources places the strength of the Villa band at 200.

According to cowboys, captured by Villa in Santa Clara canyon, who deserted after the Chihuahua battle, Villa himself entered the city and stayed until daylight. Villa adherents recently arrested at Madera have been sent north under guard of fifty de facto troops, presumably for execution.

JUAREZ, Mexico, Sept. 26.—Roving bands of bandits are reported operating less than fifty miles south of the international border today. With the arrival of several wounded soldiers here yesterday news of the battle of Samajucya, forty-seven miles south of this city, spread rapidly, causing apprehension among the townspeople of Juarez.

TAF & PENNOYER COMPANY

AMERICAN LADY CORSETS

NEW FALL MODELS

\$2.45

A Regular \$3.50 Model

This is really an exceptional offer and is made possible by a most fortunate purchase from the factory agents. By taking the entire balance of stock in the two styles included—which have just been discontinued—we were able to get an extremely liberal price concession.

Two Styles From Which to Select

(1)—Medium bust, long hip; made in fancy pink brocade.
(2)—Low bust, long hip; made in a fancy white brocade.
Full range of sizes from 20 to 30.

Corset Section, Second Floor.

Laundry Tints

NOVEL AND NEW

Changes white to any one of many colors—tan, flesh, ecru, Nile green, canary, gray, pink. It preserves the dainty color of Italian silk underwear, and is equally successful with silk crepe de chine, silk and crepe waists, hose, gloves and cotton laces.

Any goods or garments that get a yellow caste from much laundering can be made to look fresh and new with Laundry Tints. For sale at, per box **25c**

Drug Section, Main Aisle.

Shown in both gray and white, shirts and drawers only. Knit Underwear Section, Second Floor.

WHAT IS DOING TOMORROW

Industrial Exposition, Civic Auditorium, Oakland Fine Arts Galleries open, 10 to 12 and 1 to 5.

Try Oakland First week.

Julian Arnold speaks before the manufacturing committee of the Chamber of Commerce, afternoon.

Athens Chapter, No. 277, gives whist party, Masonic Temple, evening.

Hebrew New Year services, Temple Shalom, Congregation Beth Jacob, and First Hebrew Congregation Church, Berkeley, evening.

Travelers' Aid luncheon, Hotel, Oakland, 12:30 p. m.

U. of C. extension classes, Technical High School, 7:30, 8 and 8:30 p. m.

Benefit whist party, St. Joseph's Hall, evening.

San Francisco and Alameda County Music Teachers' Association give musical and reception to Edwin H. Lemare and Thomas Askin, Ubbell Club, evening.

Famous Door Breaking Policeman Is Dead

CHICAGO, Sept. 26.—Edward E. Martin, Chicago's biggest policeman, died today.

Solved 35 Days for \$1250 Cash? Work 5 Minutes for \$1250 More!

'This Is the Easiest \$500 I Will Ever Make,' Says a Cheery Participant

"This is the easiest \$500 I will ever make," a Picturegame participant wrote yesterday. "I have solved the 35 Picturegame pictures, and know I will win first prize. So, now I am going out to get a new six-months' subscription, and thus add \$500 to the award. One thousand dollars in cash will make a very attractive appearance in my bank account, and I will most certainly put it there.

Tours for easy money. But even if that participant doesn't win the first award, any prize he does win will be doubled if he has secured a new six-months' subscription.

Those who have secured or will secure a six-months' subscription will be competing for \$3500 cash, instead of \$1250 cash, for any prize they win will be doubled.

Isn't that an easy way to double your winnings—by signing up a new six-months' subscription?

He weighed 431 pounds and was six feet two inches tall. For years he was a member of the gambling squad, where he was of great value in breaking doors in raids by leaning against them.

months' subscription? It does not have to be a paid in advance subscription, mind you. Just have some friends not now taking the paper agree to take it for six months, paying month by month. Then you will be eligible to the doubled prizes.

Subscription order form in today's announcement.

Boys' Band to Be Home October 6

A telegram from Ashland, Oregon, today is to the effect that the Oakland Boys' Club Band, now on tour, will reach home on October 6, following the longest trip ever taken by the organization. The boys reported excellent health among their number and that they are now on the last stage of their tour—the homeward swing from Vancouver, Wash.

According to the message, concerts will be given in all of the important cities on the way. Although the trip has been an extremely long one, the boys report they feel ready for their long stay, the educational advantages offered being of exceptional nature.

WHAT IS DOING TO NIGHT

Merchants' Exchange meets.

Industrial Exposition, Civic Auditorium, 8 p. m.

Dr. Spaulding speaks at Cosmo-politan Club, Music Building, Berkeley, 8 p. m.

Freshman banquet, Y. M. C. A., Stiles Hall, Berkeley.

U. of C. extension class, Vocational High School, 7 p. m.

U. of C. extension class, Technical High School, 8 p. m.

Professor Manuel Jacobs speaks, Oakland Lodge I. O. B. E., Covenant Hall.

B. J. Williams speaks to Business Men's Economic League, Oak's grocery, Northbrae.

Macdonough—"Mission Play."

Orpheum—Alan Brooks and vaudeville.

Pantages—"That's My Horse," and vaudeville.

Oakland—Louise Huff in "The Reward of Patience."

Franklin—William S. Hart in "The Patriot."

Broadway—"The Way of the World."

Reliance—Emmy Wehlen in "The Pretenders."

Idora—Indoor bathing beach.

Hippodrome—Vaudeville.

Columbia—Will King in "Whirly Girl" show.

Editors Inspect Guns Mounted at Ft. Firman

LOS ANGELES, Sept. 26.—Inspection of the big guns being mounted at Fort MacArthur, on Point Firman, part of the Pacific Coast defenses, was one of the principal features of the program which brought to a close today the annual fall meeting here of the Southern California Editorial Association. The editors also were to visit some of the motion picture studios near here and were to be the guests of the Hotel Business Men's Club on a long automobile sight-seeing trip.

Speechless Groom Nods at Minister

John Hunter of Oroville today has an Oakland bride. He is 73 years old and she is 50. She was Mrs. Sarah P. Selzer of Oakland and in future as Mrs. John Hunter is to do the talking for her husband, who is temporarily dumb on account of an attack of paralysis.

BowlingSEALS AND OAKS GRAPPLE
FOR LAST TIME THIS YEAR
None Cares Who Wins, But All Eyes Are on the
Young Players

By "BILLY FITZ."

San Francisco will take its last fling at the Oaks this season, beginning this afternoon, and it will be the last series but one played by Oakland on its home grounds. Upon the youthful shoulders of Elwood Martin will be draped the mantle of attention, for this young man is to face the Oakland pitcher, Elwood Martin, in the last game of the season. The game will be played at 7:30 p.m. and will be a battle between the two teams, the Oaks and the Seals, for the championship of the league. The game will be a battle between the two teams, the Oaks and the Seals, for the championship of the league. The game will be a battle between the two teams, the Oaks and the Seals, for the championship of the league.

It doesn't make a great deal of difference who wins the series, for neither team has much chance to better its position. Such a game is a game, and the eyes of the world are on the young players. The game will be a battle between the two teams, the Oaks and the Seals, for the championship of the league. The game will be a battle between the two teams, the Oaks and the Seals, for the championship of the league.

It is doubtful whether Rube Gardner will be able to start next year. Rube has been trying to get an attack of rheumatism and malaria out of his system by journeying at Devo's Springs. He has been there for some time, and he is now back in the city. He is now back in the city. He is now back in the city.

Lack of a capable catcher is responsible for the showing of the Oakland club since Joe Tinker has been at the helm. The man behind the plate is the backbone of most ball clubs. When Rowdy Elliott left, with no one to take his place, the club was in a bad way. The club was in a bad way. The club was in a bad way.

Harold "Rowdy" Elliott, former manager of the Oaks, now a member of the Chicago National League club, is catching staff, returned to Oakland today. He is now a member of the Chicago National League club. He is now a member of the Chicago National League club. He is now a member of the Chicago National League club.

ELLIOTT RETURNS;
DENIES RUMORS
HE WILL MARRY
Oaks' Former Manager Will
Be Kept in Majors Next
Season.

Harold "Rowdy" Elliott, former manager of the Oaks, now a member of the Chicago National League club, is catching staff, returned to Oakland today. He is now a member of the Chicago National League club. He is now a member of the Chicago National League club. He is now a member of the Chicago National League club.

Concerning the major league race, Elliott rather looks for the Phillies to beat out Brooklyn. "More has a fighting ball club," said "Rowdy," "and they'll be in the race to the very last minute. It wouldn't surprise me to see them beat the Red Sox. As for the Red Sox, that was my pick from the start."

GIANTS ESTABLISH A
NEW RECORD

NEW YORK, Sept. 26.—Having established a new league record by winning twenty-one consecutive games, the New York Giants today beat the Philadelphia Athletics, 10 to 0, to establish a new record.

NEW YORK, Sept. 26.—Having established a new league record by winning twenty-one consecutive games, the New York Giants today beat the Philadelphia Athletics, 10 to 0, to establish a new record.

LEONARD OUTFIGHTS TILLMAN. PHILADELPHIA, Sept. 26.—Benny Leonard of New York defeated John Tillman of St. Paul in a well-contested six round boxing contest here last night. Leonard weighed 135 pounds and Tillman 138 1/2.

THE THREE DAY RACE MEETING will open over the Fresno mile track today. A feature of the district fair, the 234 race and 230 trot are on the program. Many of the horses that have been campaigning around the circuit will be on hand for the mixed cards of trotting and running events.

HOWARD LANDS A
HARD HITTER

Manager Del Howard of the Oaks has secured another Brooklyn National player of great promise for his 1916 team in the person of Howard. Howard is a strong man, a past season was the leading batter of the Northern League, the circuit from which the Oaks secured Outfielder Billy Lane of this year's team.

In 1915 Miller was a team-mate of Lane at St. Boniface in the Northern League, and was taken by Brooklyn that fall. He was sent back to Winnipeg for more seasoning last spring and he has been the sensation of that circuit, leading the league at the bat both in the averages and in number of total bases. He is known as the "strong man of the circuit," for that reason being familiarly known as "Hack" so called after the famous strong man, Hackenschmidt. In a field day held during the past season Miller broke the 438 foot record by driving the baseball 438 feet 2 inches. A Winnipeg paper in mentioning this feat had this to say of the matter: "The special contests between the Superior and Winnipeg players previous to the game were featured by the breaking of the world's fender hitting record by 'Hack' Miller, the husky and brilliant centerfielder of the league leading 'Pegs' Miller drove the ball 438 feet 2 inches with his trusty bat, and according to record books, to break the former mark made by Ed. Walsh of the Chicago White Sox in 1911, of 419 feet 6 inches." Miller's batting average this year in the Northern circuit was .340, and he has hit in 100 in that circuit last year and Miller about ten points better. Miller is said to be built on the order of Guisto and is a right-handed hitter.

It is doubtful whether Rube Gardner will be able to start next year. Rube has been trying to get an attack of rheumatism and malaria out of his system by journeying at Devo's Springs. He has been there for some time, and he is now back in the city. He is now back in the city. He is now back in the city.

Lack of a capable catcher is responsible for the showing of the Oakland club since Joe Tinker has been at the helm. The man behind the plate is the backbone of most ball clubs. When Rowdy Elliott left, with no one to take his place, the club was in a bad way. The club was in a bad way. The club was in a bad way.

Harold "Rowdy" Elliott, former manager of the Oaks, now a member of the Chicago National League club, is catching staff, returned to Oakland today. He is now a member of the Chicago National League club. He is now a member of the Chicago National League club. He is now a member of the Chicago National League club.

GHOST DANCE ON
BROOKLYN FIELD NO
JOKE TO EBBETS
Doesn't Relish a Bit Tinker's
Methods of Repaying His
Obligations.

NEW YORK, Sept. 26.—Another wraith joined the dancing ghost of the Federal league at Ebbets' field yesterday and joined the dance through which Joe Tinker hopes to join the Dodgers away from a pennant and world's series honors and cash.

Charles H. Ebbets himself discovered this one. His mind turned back to 1908 when the Phillies wrecked Giant pennant hopes to the relief of the club. Tinker was grateful along with other members of the Chicago machine, so if he can lead a score of new men to playing an honest game, as the Dodger President sees it.

But the ghost dance on Ebbets' field has gotten to the point where it is no joke for the Dodgers. They must face the fact that the Phillies are now in the first place. Their edge will be a single point but, then will come the struggle of the year when the Phillies must face to face for a three game series, Thursday, Friday and Saturday. Something is to drop this series and the Dodgers are fighting to win. Following this series the Dodgers have to take on the ripping, tearing Giants who are out after a consecutive victory record that will stand for years. The Phillies will have the faltering Braves on hand during the same period.

There is no one John McGraw would rather see win the title than Wilbert Robinson, the Dodger leader. But the Giants will be in position to wreck the last Dodger hopes by continuing the present brand of ball being played by the Dodgers, further stretching the winning streak and turning the tide for the Phillies will put the final crisis on the Dodgers.

Ebbets has every confidence in the ability of his team to battle through. He is confident that the Phillies will be the recipient of a collection of thwips after this season.

NEW YORK, Sept. 26.—Having established a new league record by winning twenty-one consecutive games, the New York Giants today beat the Philadelphia Athletics, 10 to 0, to establish a new record.

NEW YORK, Sept. 26.—Having established a new league record by winning twenty-one consecutive games, the New York Giants today beat the Philadelphia Athletics, 10 to 0, to establish a new record.

GRANT'S DEFEAT IN
FIRST ROUND IS
DAY'S SENSATION

Karl Schmidt Eliminates Run-
ner-up in Western
Tournament.

DELL MONTE, Sept. 26.—The defeat of Douglas Grant, Northern California champion and runner up in the western championship, in the first round of the California State championship tournament now being played here, was the feature of play. Grant had been picked as a probable winner of the title at stake, and his defeat by Karl Schmidt gave the day's sensation.

Grant played fair golf over the first nine holes, but weakened on the home stretch. Schmidt's excellent greens was a great factor in his victory at four up and three to play.

E. S. Armstrong, present State champion, was taken to the 20th hole in order to defeat A. C. Selleny of Los Angeles. Both played stellar golf and Selleny lost his chance when he drove into a bunker from the last tee.

The other favorites ran true to form, Jack Neville, Vincent Whitney and Robin Hayne winning handily.

Today play started in the women's Dell Monte championship and Mrs. A. R. Pommer, holder of the title, was on hand to defend it against all comers.

Results of the first round follow:
Robin Hayne defeated Dr. James Eaves, 5 and 4.
G. F. Cline defeated Dr. Guy Cochran, 2 and 1.
Karl Schmidt defeated Douglas Grant, 4 and 3.

Jack Neville defeated H. Spens Black, 1 up on 20th.
E. L. Gowing defeated E. B. Tufts, 2 and 1.
H. L. Mack defeated W. W. Campbell, 4 and 3.
S. M. Nevin defeated Rev. W. H. Corbett, 5 and 4.
Sam Hopkins defeated E. B. Sykes, 1 up on 18th.
Morris Phillips defeated I. W. Shirley, 3 and 2.
E. L. Johnston defeated W. B. Miller, 4 and 2.
Vincent Whitney defeated A. J. Shafer, 5 and 4.

ELLIS RETAINS TITLE.
SEATTLE, Wash., Sept. 26.—Charles Ellis, former world champion at three cushion billiards, defeated A. J. Shafer, a local man, 50 to 20, in the first of a three game series to be played by Ellis against three local players.

When you "rob the ice box," you know how you relish that last "bite" before bed-time—it does satisfy! When you smoke, Chesterfields do exactly the same thing—they satisfy!

CHICO VISITORS SEE
WATER POLOISTS

As an added attraction for the visiting members of the Chico Chamber of Commerce management of Idaho Park yesterday arranged a water polo game between the Sharks and Whales. Frank Armstrong captained the Whales, who won by a score of 3 to 2.

The lineup of the Whales team was as follows: Captain Frank Armstrong, center; Arthur Coddee, forward; Bob York, forward; William Maywood, goal keeper; Bobbie Deane and Gene Hokamp, half-backs; and Alvin Wilson, full-back. The goals were scored for the Whales by Armstrong, Coddee, while York made the score for the Sharks.

HAL HARWOOD TAKES
A BRIDE

Hal Harwood, the young catcher for the Oakland Athletics, was married yesterday afternoon at Davis to Miss Hazel Almya Sisk, who is prominent in society circles of the Sacramento valley. The ceremony was held at the residence of the bride's father, Walter Sisk, who owns several large ranches about Davis.

The wedding followed an elaborate dinner of a year and a half, and was solemnized with seventy-five relatives and friends present. Harwood is a son of Albert Harwood, who is in the insurance business in San Francisco. He is a graduate of Davis Farr School.

The young couple will make their home in San Francisco.

ARROUSEY IS KNOCKED
OUT BY JOE FLYNN

DENVER, Colo., Sept. 26.—Joe "Wop" Flynn, a local featherweight, knocked out Arrousey of California in the eleventh round of their scheduled 15-round fight at the National Athletic Club here last night.

Arrousey's knockout at the hands of Flynn last night gives him a record of one reverse, for Eddie Shannon was stopped by Young Abe Brown of Denver last Wednesday night at the residence of the bride's father, Walter Sisk, who owns several large ranches about Davis.

The committee of citizens who have in charge the arrangements for "Speed" Martin day, Tuesday, September 27, met last night and completed the program. The committee consists of J. P. Maxwell, E. L. Woodward, Charles Gale, Jerry Lavelle, Herb Remmer and Ambrose Furrer. Gale is the Pleasanton club owner under whose protecting wing Martin first attracted attention. Many bush managers will participate in the fund being raised to buy "Speed" Martin's home in Pleasanton.

HEAVYWEIGHT TITLE OF COAST
UP AT WEST END TOMORROW NIGHT

Bob McAllister and Al Norton Both Ready for
Their Four-Round Tangle.

Bob McAllister will be forced to defend two titles when he crosses his maulers with the Los Angeles heavyweight, Al Norton, at the West Oakland Club tomorrow night. Regarded as the Pacific Coast middleweight champion since his clean-cut victory over "Lightning" Billy Murray Labor Day, Bob now believes that he is rightfully entitled to call himself the Coast heavyweight champion and to substantiate this statement, he will attempt to show Norton all kinds of gloves when they tangle in Tommy Simpson's main event bout.

McAllister, though a full fledged middleweight, has been taking on heavyweights through most of his career. In the East, when "Gentleman Bob" was displaying real California cleverness in the squared circle, few middleweights were anxious to meet him. Bob issued challenges to all, but they were as willing to meet him as Freddie Welsh is willing to box Johnny Dundee or Charley White in a finish match.

Practically the same situation is confronted by McAllister around here. Since his reappearance in these circles, where he is as popular as any boxer who ever drew on a Sol Levinson, McAllister has had seven bouts, only two of them being with boys his size. In those bouts Bob had Frankie Jones and Billy Murray as his opponents. In his other scraps he has faced Bill Schaefer twice, Meehan once and also Fred Dyer, the Australian light heavyweight.

Tomorrow night Bob tackles another heavyweight. And by far the heavy whom he meets tomorrow night is the toughest boy he has been called upon to face, not excluding Willie Meehan. Norton has met men whom Meehan never classed himself with. And Al has defeated a good majority of them, too. The most remarkable of Norton's victories are those over "Fireman" Jim Flynn, who battled Jack Johnson for the heavyweight championship; Joe Cox, the Missouri heavyweight sensation; Tom McMahon, the Pittsburgh bear-cat whom Jimmy Dime brought to the Coast and who is now in Australia, and Bob Mocha, the tough Milwaukee middleweight. Jack Dillon, the Hoosier bear-cat, has been held to a ten-round draw by Norton and according to Frankie Burns, Oakland lightweight, who saw the bout, big Al had much more of the going at the end of the journey.

McAllister has defeated over Battling Levinsky, McMahon, George Ashe, Tommy McCarthy, Sailor Grande, Meehan, Murray, Kid Wagner, Young Mike Donovan, the New York heavyweight, and Ed Nearing, another Eastern sand-rater. Mike Gibbons, the St. Paul phantom, pulled the only big upset in the world's greatest fight, when he defeated the former holder of the title, and it was through a K. O. jolt which Sir Michael landed in the seventh round. However, that was two years ago and Bob and his admirers think that he has improved wonderfully since that occasion.

When Bob goes East again he will bring with him a fairly hefty wallop, something that was noticeably absent on his last visit to the "big sticks." Matchmaker Simpson has lined up a stack of nifty "prelimes" for the amusement of the fans. Battling Vieira will have another chance to show his worth when he meets Freddie Wharton. The latter has been a stumbling block to the most of the transbay boys and is a terrific hitter. Vieira has an open style of swinging and unless he closes up tomorrow night, the San Francisco crowd may put over a K. O. blow.

Jimmy Lastra will be in much better form when he meets Young Turner in a return match. He was off cold last week and expects to show to better advantage when he meets the "cullud crack" tomorrow evening. Eddie Burns and "Salinas" Jack Robinson, one of the old-timers of the four-round game, should mix in a hot four-round go, while Pete Francis, Eschmunt lightweight demon, has Sammy Pelsinger as an opponent. East Oakland will meet West Oakland when Joe Manese tackles Jimmy Magill. The pair are bantams.

When you "rob the ice box," you know how you relish that last "bite" before bed-time—it does satisfy! When you smoke, Chesterfields do exactly the same thing—they satisfy!

Yet, Chesterfields are mild! This is something entirely new to cigarettes—this combination of mildness with "satisfy!" It hasn't been done before.

This new kind of enjoyment comes to you only in Chesterfields—because no other cigarette maker can copy the Chesterfield blend!

An Invitation

Samples of wares from a goodly portion of Alameda county's thousand factories are displayed for your inspection this week. Come and see the result of earnest effort exhibited in wares, products and merchandise made in Oakland factories. Have a real vision of Oakland's future prosperity and greatness and assist in spreading the wisdom of "TRY OAKLAND FIRST."

Optimism has never ceased to be the guide to achievement and advancement among the citizens of Oakland and apathy has never had a foothold here.

The real boosters of the county have always been those who go and come in daily duty at home and in the shops—the rank and file who have served as inspirations to those to whom was intrusted the great duty of planning and carrying out this splendid show now ready for your praise and education.

This is your opportunity to show your approval of good work well done and as in the past add cheer and helpfulness towards greater effort.

WE INVITE YOU TO INSPECT THE DISPLAYS OF OAKLAND MADE PRODUCTS IN THE DOWN-TOWN WINDOWS, AND PAY US A VISIT AT THE AUDITORIUM DURING THE WEEK.

\$10,000 Awarded in Prizes

PIANO MANUFACTURERS APPROPRIATE LARGE ADVERTISING FUND TO BE DISTRIBUTED IN OAKLAND AT INDUSTRIAL EXPOSITION.

No home need be without a piano or player piano now. Clip out the coupon below or call at our Oakland Store or at our Exhibit Booth at the Civic Auditorium and you will be presented with a manufacturer's coupon entitling you to \$100.00 first payment on any piano or player piano, either in our special exhibition stock of pianos at the Auditorium or on any new piano in our Oakland Store. You need make no cash payment with a coupon.

We have secured this large advertising appropriation from the different manufacturers from whom we buy pianos.

This is positively a bone fide offer. The same low prices on all pianos that have made Eilers Music House the greatest Music House in the West are in plain view, so that a child could buy a piano now. The cause and volume, the quick distribution of this transaction makes an offer of this kind possible with the manufacturers.

Think of this opportunity! \$100.00 cash payment on any piano. No further outlay of money necessary. Your piano delivered the same day you arrange for it; either out of the Exposition stock or from our store. Come first thing, today or tonight. This fund is going to be distributed quickly. Arrange first for your coupon, then select your piano at your leisure.

Smoke Inspectors to Work Out of a Job

CHICAGO, Sept. 26.—Smoke would be abolished down to the last curl if the smoke inspectors of the nation had their way, and they met here today to see if they can't beat themselves all out of a job by finding some way of doing just that. Virtually every bit of smoke made is unnecessary and can be consumed if the right firing methods are employed, the smoke men say.

the next convention. He thinks his stodge, stodge city needs it. President W. A. Hoffman of St. Louis, Vice-President Charles Heath of Cincinnati and Secretary Frank A. Chambers of this city are present. The convention will close September 29.

CONGRESSMAN IS ILL.
SAN FRANCISCO, Sept. 26.—Congressman William Kent is confined to his home in Kentfield by a slight illness. He declared last night that he expected to be all right in a few days.

COR. WASHINGTON & 12TH STREETS

We've kept the wires hot between here and New York pressing demands for immediate shipment of the rest of those Briskly Styled Coats of which our New York office sent us the first 150 last week.

\$19.75
At

They are such unmatched values that on first showing they were snapped up in three days.

Another shipment of 225 came this morning, more beautiful than the last.

Those cosy "up-to-the-eyes" collars that sit snugly and gracefully when turned down are again in evidence. New pocket ideas and belt effects never before seen give a pleasing variance.

You'll appreciate them more in being able to choose from rack after rack of Fine Broadcloths, Mixtures, Broadcloths, Mixtures, Wool Velours, Novelty Corduroys and Plushes.

If we were to linger over the selling, like others, we could get \$25 and \$30 for these models, but we like the action of great volume of business even at a slight profit.

ANGELL TELLS OF WORK IN BELGIUM

Insufficient Food Endangers People, Says Expert; Diseases Menace.

STANFORD UNIVERSITY, Sept. 26.—Inanition and not starvation is the cause of suffering to the people of Belgium, according to the opinion of Dr. Frank Angell, head of the department of psychology of Stanford University, who returned here last night from Europe where he has been working with the American committee on Belgian relief under Henry C. Hoover.

"Seven million people are being cared for in Belgium," said Dr. Angell. "They are not facing starvation, but are suffering from inanition. Insufficient food is wakening them and lessening their power to resist such diseases as tuberculosis and rickets."

"The birth rate has declined greatly and it is among the infants who have to depend upon milk that the greatest danger is found. Many herds of cattle have been taken in charge by the relief commission, and the German government has aided in this work by eliminating milk bearing cattle from army requisition."

Dr. Angell will resume his classes at once.

Notary fees charged to old soldiers in collecting their pensions may not be a legitimate charge against their estates where they have been held incompetent, according to Superior Judge T. W. Harris, who has returned to the bench after the illness of several weeks. As a result of the court's contention several hundred dollars may be saved in the cases pending before the court.

In perusing the claims against the estates in cases before him, Judge Harris noted that charge of \$1 had been made for each day in order that his version of the law may be verified by a perusal of the statutes.

Notary John W. Stetson appeared as counsel for George Hestis, guardian in the estates before the court for settlement. The estates involved were those of Andres White, Arabella Bartran, Richard McCoy, James Ward, Eliza R. Woods, Susan J. Doume, Susan C. Dol, Sarah Trask, George Burke, Mortimer Cummings, Peter C. Anas and Osmand Nierken.

Shall Penniless Be Admitted to Hospitals?

PHILADELPHIA, Sept. 26.—Whether penniless laborers who have suffered accidents in factories or elsewhere shall be accepted in dispensaries, and where the money is coming from to pay for their treatment if they are accepted, is one of the subjects for discussion at the annual convention of the American Hospital Association, which began here today. The question has been much hashed over and a certain part of the membership is said to be excluding them.

Dr. Winfield Smith of Baltimore, Dr. Richard P. Border of Fall River, Dr. Charles E. Young of New York, Dr. L. B. Edwin of Minneapolis, Charlotte Aikens of Detroit, Dr. W. L. Hancock of Detroit, Dr. J. W. Fowler of Louisville and Dr. R. Ross of Buffalo also will speak.

Stanford Professor Is Killed in Battle

STANFORD UNIVERSITY, Sept. 26.—Assistant Professor Robert E. Pellissier of the French department was killed in a battle on the Somme river, according to a telegram received by President Ray Lyman Wilbur.

Professor Pellissier left Stanford in 1914, shortly after the war broke out, to take up arms for France. He was granted additional leave of absence twice by the board of trustees that he might stay in France.

A year ago he was injured seriously in a fight in France. After recuperating he was promoted to a lieutenant, and again joined the ranks. Professor Pellissier had no relatives in this country that university authorities know of.

Stewart-Anderson Contest Dismissed

After counting the ballots in twenty-five precincts out of 27, three in the Thirty-ninth assembly district, the contest brought by Fred B. Stewart against Frank W. Anderson for the Republican nomination was dismissed last evening when it was found that there was a gain of only five votes difference for Stewart over the official count. Anderson also received the Democratic nomination by a small plurality over W. P. Lennox. Lennox received the Progressive nomination and will compete for election with Anderson, H. W. Meads, prohibition candidate, and H. K. Albright, socialist. The recount was held before Superior Judge William H. Wast.

Stage Bandit Walks Into Police Snare

STOCKTON, Sept. 26.—In Alexander Fyfe, who attempted to rob the Sonoma-Tuolumne stage Saturday, the Stockton police believe they have the lone hold-up man who has robbed several stages plying in and out of the Yosemite Valley during the last three years.

Fyfe was captured near the entrance to this city by Policemen J. L. Craig and M. Aratta after a struggle.

LINCOLN'S FRIEND DIES.

CAMDEN, N. J., Sept. 26.—Colonel Caesar Rodney May, namesake and descendant of one of the Delaware signers of the Declaration of Independence, is dead here. He was a friend of President Lincoln.

PROTEST IS CONSIDERED.

PANAMA, Sept. 26.—The protest of the foreign corporations against the signing by the President of the employers' liability law has been referred by the President to the secretary of public works.

Noted Men Will Act As Vice-Presidents

Rabbi Meyer, Supreme Court Justice M. C. Sloss, Appellate Court Justice Thomas J. Lennon, R. M. Tobin of the Hibernia Bank and George A. Stanley, grand secretary of the Young Men's Institute, are among the representative citizens of San Francisco who have accepted invitations to act as vice-presidents of the meeting to be conducted in the Civic Auditorium the night of October 9 by California Council No. 880 of the Knights of Columbus, at which Hon. Joseph Scott of Los Angeles will deliver an address on "Ideal Citizenship."

Scott is completing a tour of the large cities of the United States, under the auspices of the Knights of Columbus, during which he has spoken before more than 100,000 people on "Patriotism vs. Prejudice" and "Ideal Citizenship."

It is claimed that he has an important message to give to the citizens of San Francisco. He is considered a remarkably eloquent and interesting public speaker. The coming lecture will be free.

Dr. T. M. McGuire is chairman of the committee in charge. Other members of California Council, K. of C., on the committee are: Francis Mannix, B. F. Sullivan, Harry J. Mullin, John Boyle, Charles Sullivan, Dr. J. G. Brady, Samuel Pierrey, Andrew Flynn, Peter O'Keefe and Dr. Joseph R. Brown.

Father McHugh Is Given Testimonial

Oakland talent shone in a musicale at the home of Mrs. P. Nugent Hanrahan, 1649 Twenty-eighth avenue, when Rev. Father P. McHugh was the recipient of a testimonial. According to those present, the musicale, held in honor of the well known pastor of St. Jolitz church, was a huge success.

Among those who participated in the program were Jack Murphy, Oakland; Mrs. G. L. Wellington, Alameda; Miss W. G. L. of the Oakland Conservatory of Music; Harry Wadsworth, Santa Clara College, and Miss Charlotte Horner and Daniel Casey of the Orphanum. Clyde Westover directed the program, after which both entertainers and clergymen were guests of Mrs. Hanrahan at a dinner.

Civic League Plans Special Session

In order to hear a presentation of the "Community Property" question a special meeting of the Oakland Center of the California Civic League has been arranged for Thursday afternoon at Hotel Oakland at 2:30 o'clock, instead of on Friday, as originally planned.

Talks will be given by Mrs. Arthur W. Foshay, a prominent member of the Oakland Club and several other women's organizations, and another speaker will be Mrs. L. H. Montgomery, who has been addressing many gatherings on "Abuses of the Present Community Property Law" and on a measure she is sponsoring.

Nervous Periodical Headaches

This trouble commonly called "sick headache" is said to be due to the retention of uric acid in the system. Often it is stated that a poor condition of the blood is a cause of these headaches, or that it is a nervous condition; and in certain cases, no doubt this is true.

Where treatment is demanded, it is more for the pain than anything else, and Dr. A. F. Schellenschmidt of Louisville, has a most satisfactory remedy. He should be insisted upon, he says, "and the patient should go to bed, darken the room, and all the attendants and family should be as quiet as possible. An emetic will sometimes abort the attack. The bowels should be kept open with 'Aristol' or a hot bath and a thorough rub-down with a coarse towel, often give grateful relief. Two anti-kamela tablets when the first signs appear, will usually prevent the attack. During an attack, one tablet every hour or two will shorten the attack and relieve the usual nausea and vomiting." These tablets may be obtained at all druggists. Ask for A-K Tablets. They are also useful for nervous headaches, neuralgia and all pains.
